THE TALKING MACHINE WORLD

EDISON ARTISTS POPULAR QUARTER OF A CENTURY AGO

An Interesting Photograph of a Number of Old-Timers in the Record-Making Field When the Industry Was in Its Salad Days

Those members of the trade who have been continuously connected with the industry for the past quarter of a century will be interested,

There are many who were well and favorably known in older days, but quite a few of them are in the public eye to-day. The picture is quite

Dear Mr. Riggs,

It just happens that I have a few moments to spare in which to answer your letter before I go out on my beat.

I'll have to wait until I go home this afternoon and send you a card giving Al Campbell's address. He lives in Bayside, N. Y., but I can't recall the street number. When I last heard from him he was spending most of his time traveling with a Gay Nineties troupe in vaudeville.

I don't know Lewis James' address, but since he was with the Revelers for so many years as an NBC network feature, I imagine a letter addressed to him in care of the National Broadcasting Company, 711 Fifth Avenue, New York, would be forwarded to him. A year or so ago I read in The Billboard that one "Lewis James" was directing radio programs in Chicago, but it was not made clear whether he was the singer. It might be, because James developed a tendency a few years ago to claustrophobia, which was making it impossible for him to sing in a radio studio because of the confined space.

I used to have Vernon Dalhart's street address, but have not heard from him in several years. Perhaps I can find it for you. He lives in New York. I imagine he keeps in touch with RCA-Victor studio people there, although he has not recorded, as far as I know, since 1939, and that a letter sent in care of Victor would reach him.

Harry MacDonough died in the fall of 1931.

My Hobbies department has been running since January, 1942. Billy Murray was one of the first artists written up - I believe in the April, May and June, 1942 issues. I got him in early because I had so many requests, and, besides, he is my favorite recording artist, too, and one of my best friends. Billy is still living in Freeport, N. Y., and seems to be having good health now, although a couple of years ago he was very ill from coronary thrombosis.

I may possibly have an extra copy of the issues of Hobbies containing the series on him, which I could let you have if you are unable to obtain them elsewhere. I'm not sure I have extras of all three articles, but am pretty sure I do have of two of the issues.

I'll try to let you know about Campbell and Dalhart later. It's a pleasure to know that you like what I write for Hobbies. I hope that I shall be able to find time to write a book giving biographical sketches of the pioneer recording artists, but at present I'm extremely busy. I recently mailed an elaborate series on Ada Jones to Miss Reeder, the editor of Hobbies. It should begin in the May issue.

With best wishes, I am

Sincerely yours,

Jim Walsh

SOPRANO SOLOS

Records by May Irwin with orchestra

This popular comedienne is so closely associated with good humor and droll fun that the mere mention of her name is usually the signal for mirth. She invariably keeps her audience in a laughing mood with her quaint witticisms and the inimitable way in which she sings her clever songs. Miss Irwin has agreed to make records exclusively for the Victor.

By Clarice Vance with orchestra

One of the greatest favorites of the vaudeville stage today is Clarice Vance. Unassuming, quiet, dignified and clever; possessed of a droll humor and a sly method of expression that are simply irresistible, she is in a class by herself with her clear-cut delivery of popular "coon" songs.

Miss Vance has made us nine records which are an absolute reproduction of her voice and droll mannerisms. The songs are new and most clever and the records thoroughly delightful ones.

Three Records by Alice Lloyd with orchestra

This charming English comedienne has made a very great success in America. Her attractive personality, bright and humorous style, and her amusing songs, which are absolutely free from anything objectionable, have captured her audiences everywhere.

The Victor Company has induced Miss Lloyd to sing three of her best songs, which will be found most amusing.

Bishop 10

One of the most delightful of the coloratura songs written by Sir Henry Bishop, and a favorite with many famous singers. Mme. Jones, who is one of the best-known concert singers in Great Britain, has delivered Bishop's florid air in a most graceful and fluent manner.

Columbia Indestructible Cylinder Records

4-Minute Records (Continued)

3227. All Aboard for Blanket Bay. (H. Von Tilzer.) Tenor solo by Walter Van Brunt. Orchestra accompaniment.

The best play-time song issued in many seasons. Undoubtedly the interest in this new lullaby by Harry Von Tilzer will be such as to carry the selection to a great popular success in recorded form, equally as in the sheet music sales which have been phenomenal. The verses are just as attractive as the music, which is written in Harry Von Tilzer's inimitable style. Mr. Van Brunt's record is one of the most effective performances we have recently had by this versatile artist.

3229. Will the Roses Bloom in Heaven? (Harris.) Tenor solo by Henry Burr. Orchestra accompaniment. In Charles K. Harris's latest child-song, "Will the Roses Bloom in Heaven?" we have a number that will surely outshine in popularity the same composer's "Hello, Central, Give me Heaven," and other extraordinary popular compositions of the same nature. Mr. Harris in this has caught the true child spirit and has drawn with a wonderful pathos and realism a musical picture of a little tot's dying desire to have with her in Heaven the roses she loved so well on earth. One of the best melodies Mr. Harris has ever written is found in this number. In its rendition Mr. Burr has effected some beautiful tonal interpretative effects.

3232. Tont Passe Waltz. (Berger.) Whistling solo by Guido Gialdini. Orchestra accompaniment. Our first 4-Minute Indestructible records by the famous whistler, Gialdini, whose remarkable success in his American tour this year has created unusual comment. Gialdini unquestionably makes the best natural whistling records ever offered to the public. His recording of this celebrated waltz by Berger is one that is certain to attract wide attention among cylinder record buyers.

3231. The Crushed Tragedian. (Spencer.) Vaudeville sketch by Ada Jones and Len Spencer, with orchestra. An entirely new and characteristically clever sketch by Spencer and Jones, in which an actor of the old school gives a recital of his tribulations in a way that would melt a heart of stone if it were not so conducive to laughter. He admits that there are two great tragedians left but does not enlighten us as to who is the other one.

3226. Mandy Lou. (Allen.) Sung by Peerless Quartette. One of the most melodious little coon songs of any recently issued and bound to be a big success—one of the sentimental song hits of the season. The quartette arrangement is full of fine concerted effect and shows an admirable blending of the four solo voices that render it.

Columbia Indestructible Cylinder Records

EVERY Columbia Indestructible Cylinder Record issued is an artistic achievement in its particular class of recording. Add to this the fact that it will never break and never wear out—play it three thousand times and it is as good as new at the end—and you have a record that is practically beyond all comparison. To attain the best results from the Indestructible Cylinder Record, it should be played with our special extra tension reproducer, which we provide to fit any machine.

With the recent introduction of the Columbia 4-Minute Indestructible Record a further revolution has been effected in cylinder record traditions throughout North America. The regular 2-minute Columbia Indestructible Record at thirty-five cents, with its matchless tonal qualities and unbreakable texture, was universally conceded to be the greatest boon to cylinder record users ever introduced on this continent. But you may safely double the entertainment, economy and profit of the 2-Minute Record, to arrive at a proper estimation of the Columbia 4-Minute Indestructible Cylinder Record. Every selection on the 4-Minute Record is given entire—from four to five minutes of solid entertainment. These advantages combined with that other superiority of Columbia Indestructible Records—their absolute indestructibility being taken into consideration—we may safely assert with regard to the new 4-Minute Indestructible Cylinder Record that "it is the only 4-Minute Record that is right."

All Columbia Cylinder Graphophones now being produced are equipped to play either 2-Minute or 4-Minute Indestructible Records. For instruments previously sold we supply a special equipment which will play either Columbia 2-Minute or 4-Minute Indestructible Records by the simple shifting of a small lever. The price of this special attachment is \$7.50 and any dealer can equip your graphophone with it.

Any phonograph equipped with a 200-thread attachment for 4-Minute Records will play Columbia Indestructible 4-Minute Records and double its value to you at once.

The special attention of our patrons is invited to the fact that Columbia Indestructible Cylinder Records can be sent safely by mail under 4-cent postage.

1498. When Mariola Do The Cubanola. (Von Tilzer and Dillon.) Baritone solo by Arthur Collins. Orchestra accompaniment.

Here we have Harry Von Tilzer's latest rag-time novelty song telling of the spectacular way in which Mariola fairly tore things loose when she danced the famous Cubanola dance. The music is bright, crisp and catchy, in general style reminding one of some of Von Tilzer's most spectacular hits of the past, notably the "Cubanola Glide." This is a sort of number that Mr. Collins revels in.

1492. I Love Me Wife. (Bryan & Brown.) Baritone solo by Fred Duprez. Orchestra accompaniment.

One of the catchiest novelty songs of the present season, telling of four founders who arrive home at four in the morning, considerably the worse for wear, and find upon the spur of the moment an ingenious number of squaring themselves with their wives. The number provides a most agreeable light popular entertainment as amusingly rendered by Mr. Duprez.

1486. Let Me Live and Stay in Dixieland. (Bryce & King.) Tenor solo by Walter Van Drumt. Orchestra accompaniment.

No one who has heard Leslie Stewart's charming new musical comedy, "The Slim Princess," recently produced at the Globe Theatre, New York, can fail to be interested in the selection, "Let Me Live and Stay in Dixieland," which has been given clamorous applause at every performance, forming indeed the one most spectacular hit of the production. It is assuredly one of the cleverest songs of its kind ever written.

1487. Dreaming. (Bailey.) Contralto solo by Helen Clark. Orchestra accompaniment.

A song that has come into prominence through several seasons of continuous popularity, during which its charming, flowing melody has endeared it to the public at large in a remarkable manner. The song is strictly of the serenade form with a clean and wholesome sentiment. Miss Clark has done some remarkably good work in our record.

Columbia Indestructible Cylinder Records

2-Minute Records (Continued)

1488. Alma, from "Alma, Where do you Live?" (Priguet.) Soprano and tenor duet by Inez Harboure and Harry Anthony. Orchestra accompaniment.

The principal hit from one of the past season's most spectacular successes in New York, a musical comedy which kept Weber's Theatre crowded from one end of the season to the other. The "Alma" duet is the catchiest kind of a flirting song with a melody you cannot help singing or whistling the second time you hear it, and you will want to hear it many more times than that.

1490. Cribbribin. (Waltz.) (Pestalozza.) Whistling solo by Guido Gialdini, with orchestra.

In this we find one of the world's greatest natural whistlers making a record of the most pronounced success of its kind ever introduced in this country. "Cribbribin" has been played during the past year by practically every orchestra from coast to coast and as a vocal number it has made a tremendous hit. It is a typical Neapolitan street song, if anything even more characteristically so. Its free, graceful movement and the fascinating lift of its waltz air is irresistible as recorded by Gialdini, whose whistling has been one of the sensations of the vaudeville stage throughout the United States during the past winter and spring.

1491. Father Was Out. Vaudeville sketch by Murry K. Hill, with orchestra.

1493. Oh Glory. Vaudeville sketch by Murry K. Hill, with orchestra.

This month we introduce to Columbia Indestructible record buyers one of America's cleverest and most versatile monologists and comedy entertainers, Mr. Murry K. Hill, whose work on the big vaudeville circuits the country over has made many thousands laugh.

There is individuality and to spare in each of these new recordings by Mr. Hill, a generous measure of the artist's own cheerful and optimistic personality having found its way into the heart of the record itself which gives an impression of intimacy with the performer such as it is impossible to resist. In his first Indestructible record "Father Was Out," Mr. Hill gives an amusing potpourri of song monologues in his own versatile and imitable manner, the title song of which thoroughly demonstrates that "father" was a wizard at knowing when it was safe not to be in. In his other sketch, "Oh Glory," Mr. Hill has recorded fragments of several original songs with festive and wonderful titles, the humorous points from all of which will be appreciated.

1485. The Great Conquest. (Wood.) Played by Military Band.

Columbia Indestructible Cylinder Records

4-Minute Records

1424. The Billboard. (Klober.) Played by Military Band.

Our 2-Minute Band records this month will be found excellent additions to the very extensive and comprehensive list of band records made up in former offerings. Both are march compositions, the former being undoubtedly the best military march issued during the past two seasons, its strong martial swing and rhythm is most impressive and satisfying. "The Billboard" is a light popular march full of animation and charming melody.

Columbia 4-Minute Indestructible Cylinder Records, 50c

3226. Baby Rose. (Christie.) Tenor and baritone duet by Byron G. Harland and Arthur Collins, orchestra accompaniment.

In this we have one of the very limited number of really big mid-summer hits this season—a clean and cleverly melodized little sentimental song, with enough suggestion of syncopated tempo to make it interesting to those who like up-to-date rag-time. The arrangements of parts for the two voices shows unusual skill in harmonic effect, such as record-makers like Collins and Harland are not slow to take advantage of.

3230. A Bunch of Nonsense. (Vaudeville sketch by Murry K. Hill, with orchestra.

Mr. Hill's first 4-Minute Indestructible record will give him instantaneous prestige amongst our patrons as one of the wittiest and cleverest humorous entertainers that ever made a record. This particular record is an entire vaudeville sketch in itself, showing to excellent advantage Mr. Hill's varied and versatile style, telling among other things how to properly manage a refractory husband and giving some sidelights upon the history of the discovery of America, calculated to make any historian sit up and take notice.

3225. Gesundheit Waltzes. (Helf.) Played by Military Band.

3223. Danse des Sultanes. (Daniels.) Played by Concert Band.

Two band records that are bound to come in for a big share of popular favor, the first number of which comprises a fascinating set of waltzes based upon old German airs familiar to all and loved by everyone. "The Sultans Dance" is a singularly attractive modern concert composition played by the Concert Band and is notable for the spirited grace and animation of its melody.

AGREEMENT made this sixteenth day of May, 1911, between CAL STEWART, of New York, New York, party of the first part and THOMAS A. EDISON, INCORPORATED, party of the second part.

The party of the first part agrees to make for the party of the second part two (2) perfect master records each of not less than four (4) different monologues per year. These monologues to be furnished by the party of the first part and are to be of a "Rube" character such as the party of the first part is identified with and are to be of such a quality as will be accepted by the critics of the party of the second part. The records are to be recorded at a place designated by the party of the second part and the dates on which these records are to be recorded will be mutually agreed upon and are to be made at such a time as will not interfere with the vaudeville dates of the party of the first part.

For this work the party of the second part will pay the party of the first part one half cent (.005) royalty on each and every record and copy of record sold by it serving to reproduce mechanically the monologues referred to above and a statement will be rendered quarterly, on the first of January; April; July and October and payment to be made not later than the first of the following month.

It is further understood and agreed that during the life of this agreement the party of the first part will not make sound records of any description for any other person, firm or corporation.

This agreement is to extend over a period of five (5) years from the above date and the party of the second part will have the option of renewal for another five (5) years on ~~the same conditions as above~~ and it is

terms to be agreed on
further understood that in case the party of the second part does not care to exercise its option the party of the first part will receive a royalty on all records made under this agreement for one year after the expiration of this agreement.

IN WITNESS WHEREOF, the parties hereto have executed this agreement in duplicate the day and year above written.

To the Reader.

The one particular object in writing this book is to furnish you with an occasional laugh, and the writer with an occasional dollar. If you get the laugh you have your equivalent, and the writer has his.

In Uncle Josh Weathersby you have a purely imaginary character, yet one true to life. A character chuck full of sunshine and rural simplicity. Take him as you find him, and in his experiences you will observe there is a bright side to everything.

Sincerely yours

Life Sketch of Author

THE author was born in Virginia, on a little patch of land, so poor we had to fertilize it to make brick. Our family, while having cast their fortunes with the South, was not a family ruined by the war; we did not have anything when the war commenced, and so we held our own. I secured a common school education, and at the age of twelve I left home, or rather home left me—things just petered out. I was slush cook on an Ohio River Packet; check clerk in a stove and heading camp in the knobs of Tennessee, Virginia and Georgia; I helped lay the track of the M. K. & T. R. R., and was chambermaid in a livery stable. Made my first appearance on the stage at the National Theatre in Cincinnati, Ohio, and have since then chopped cord wood, worked in a coal mine, made cross ties (and walked them), worked on a farm, taught a district school (made love to the big girls), run a threshing machine, cut bands, fed the machine and ran the engine. Have been a freight and passenger brakeman, fired and ran a locomotive; also a freight train conductor and check clerk in a freight house; worked on the section; have been a shot gun messenger for the Wells, Fargo Company. Have been with a circus, minstrels, farce comedy, burlesque and dramatic productions; have been with good shows, bad shows, medicine shows, and worse, and some shows where we had landlords singing in the chorus. Have played variety houses and vaudeville houses; have slept in a box car one night, and a swell hotel the next; have been a traveling salesman (could spin as many yarns as any of them). For the past four years have made the Uncle Josh stories for the talking machine. The Lord only knows what next!

FIT ANY CYLINDER MACHINE AND LAST FOREVER

THE Columbia Indestructible Cylinder Record means as much to owners of CYLINDER machines as the Columbia Double-Disc Record means to owners of DISC machines.

Indestructible is a true word—although this feature of Columbia Indestructible Cylinder Records is entirely secondary to their tone quality. They won't break no matter how roughly they are used; they won't wear out no matter how long they are played. The three thousand reproduction is as full, clear and perfect as the first. They can be mailed as readily as a letter, and climatic conditions do not affect them—wet or dry, hot or cold.

On ANY machine, with ANY reproducer, their tone is equal to that of any cylinder record, but with the special Extra-Tension reproducer, which we provide to fit any make of cylinder machine, their tone is far purer, clearer and more brilliant than any other cylinder record made.

If you own a cylinder machine be sure to have your dealer demonstrate to you the Columbia Indestructible Record with the special Extra-Tension reproducer.

950. The Fairest of the Fair. March. (Sousa.) Military Band.

Sousa's latest march, recently listed among our Double-Discs, is now issued in Indestructible Cylinder form. This is one of the best of Sousa's many famous compositions and is constantly gaining in popularity. It is thoroughly characteristic of the man who wrote "The Stars and Stripes Forever," and nothing more is needed to insure it phenomenal success.

951. Good-bye, Sweetheart, Good-bye. (Von Tilzer.) Baritone solo by Alan Turner. Orchestra accompaniment.

A sentimental selection of true depth of feeling, set to music as melodious as any Von Tilzer has ever before done. Alan Turner needs no introduction as a baritone of the highest type. He sings this number in admirable style, with a splendid climax note at the end.

952. Mandy Lane. (McKenna.) Soprano solo by Ada Jones. Orchestra accompaniment.

A typical "coon-song" of the South. Mandy Lane lives in "a little cabin on the Suwannee shore," and as her dusky lover passes on his boat he serenades her in the tuneful refrain of this most pleasing song. Miss Jones has never done better work than in our record.

953. Stella. (Paulton.) Baritone solo by Frank C. Stanley. Orchestra accompaniment.

Stella is a Swiss maiden who lives in a little village in her native land. A painter, hearing of her beauty, comes from afar to sketch her portrait and incidentally falls in love. The melody is slow, sweet and expressive, lying in the best part of Mr. Stanley's splendid range.

954. Alabam'. (Van Alstyne.) Tenor and baritone duet, by Byron G. Harlan and Arthur Collins. Orchestra accompaniment.

"Alabam'" is here listed in Indestructible Cylinder form, by the same splendid team of singers as in our Double-Disc record (see A 605, this issue). There is little to choose between the two in the qualities of singing and recording.

955. Oh! Lord, be Thou my Light. (Glover.) Baritone solo, by George Alexander. Orchestra accompaniment.

This impressive and dignified sacred solo is given a most fitting rendition by George Alexander, whose splendid baritone notes show to particular advantage in selections of this character.

956. The Scarf Dance. (Chaminade.) Symphony Orchestra.

Each of Chaminade's many compositions has a peculiar grace and a charm all its own, the "Scarf Dance" being not the least of the numbers that have made the name of this gifted and versatile composer known the world over. Its melody is frankly oriental, with constantly changing tempo and intervals of an unusual nature. It is played most effectively by our orchestra.

957. Good Evening, Caroline. (Von Tilzer.) Tenor solo, by Billy Murray. Orchestra accompaniment.

Our Indestructible Cylinder record of this popular number is none behind the Double-Disc (A 5080, this issue), in quality of entertainment. It makes a most effective solo, and is sung by Mr. Murray with much appreciation of its humorous character.

958. If You Were Mine. (Mills.) Quartette. Orchestra accompaniment.

A genuinely touching sentimental selection, rendered in most satisfying manner by our quartette. The verse is sung by Henry Burr with fine, sustained tone, the entire rendition satisfying the listener that it could not be better done.

An entertaining little song in German dialect.	
5124 He Goes to Church on Sunday	10
A real Irish song with a rousing male chorus in the responses.	
5364 He's a Cousin of Mine	8
Smith-Hein	
A song which gives hypocrites of all shades a few hard rap.	
5064 Honorable Doolin	8
Mills	
5207 Honey Boy	10
With whistling chorus	
Von Tilzer	

By Billy Murray with orchestra

NUMBER	SIZE
5231 I'd Rather Two-step than Waltz, Bill	8
Burt	
5063 Ida-Ho	8
Von Tilzer	
5196 In the Land of the Buffalo	10
Van Alstyne	
5355 I'm Afraid to Come Home in the Dark	10
Husbands who come home late are served with a warning in this tale of the wife who turned the tables on "hubby!"	
5591 I'm Glad I'm Married	10
Norworth-Von Tilzer	
5358 I'm Looking for the Man that Wrote the Merry Widow Waltz	10
Furt	
2662 I'm on the Water Wagon Now	10
Frank Daniels' hit	
4467 In My Merry Oldsmobile	10
Edwards	
5100 In Washington	8
A merry automobiling song with a most fetching refrain.	
4722 Is it Warm Enough for You?	8
Bryan-Hoffman	
5550 It Looks Like a Big Night To-night	8
"Hot Weather" song	
Van Alstyne	
The story of a gay husband who sends his family on a boat excursion, or somewhere—it doesn't matter—and they were not expected to return until the next day; but when he arrived home about three A. M. he saw a light in the window!	
2493 I Think I Oughtn't Auto Any More	8-10
You may guess the rest.	
5195 I Think I Oughtn't Auto Any More	10
Certainly the most amusing of all automobile songs. No motorist ever had before such an assortment of adventures.	
5459 I Was a Hero, Too	10
Van Alstyne	
"This is Sam Bernard's principal song in his new comedy 'Nearly a Hero,' and a most clever topical ditty."	
31507 Keep on the Sunny Side	12
Morse	
A new "philosophy" song by the writer of "Starlight."	
5472 Lanky Yankee Boys in Blue	10
From Lonesome Town	
4698 Let Me See You Smile	8
Fischer	
Rather a novel little song, in which the lover tries to cheer up his downcast sweetheart.	
5236 Lucia	8
Klein	
5083 Man Without a Woman	10
Rogers	
Describing that most miserable of wretches, the bachelor!	
5492 Mother Hasn't Spoke to Father Since	10

4739 Mother, Pin a Rose on Me	8
Just nonsense	
5335 Much Obligated to You	8
Burt	
4872 My Mariuccia	10
Take a Steamboat	
An Italian dialect song, which is very neatly done. The little louts of the imaginary "steamboat" are very funny.	
4861 Not Because Your Hair is Curly	8-10
Adams	
4721 Nothing Like That in Our Family	10
Furt	
5123 No Wedding Bells for Me	8-10
Moran-Heelan	
5631 Over on the Jersey Side	10
Norworth	
A topical song which "roasts" poor, long-suffering New Jersey.	
5065 Parody on "Dearie"	8

Catalogue of Columbia Records.

THE Success of the Columbia Records has been unprecedented, and the demand for them from all parts of the world has long been great. Our army of patrons know our records are **THE BEST** and are cheap only in price. Those who use them know **IT PAYS TO DEAL WITH HEADQUARTERS**. If those who have not as yet availed themselves of this privilege will favor us with a sample order we will demonstrate to their entire satisfaction that our position as

Manufacturing Headquarters for the World for Talking Machines and Supplies,

and our superior facilities for the manufacture of everything pertaining to the business, make it possible for us not only to supply records which can not be equalled in quality, but to furnish our patrons with them at less than the cost at which they can actually be made elsewhere. The enormous sale of our records is not due alone to the fact that they are offered at a low figure—poor records being dear at *any* price—but more particularly to the fact that **A COMPARISON** between them and the high-priced ones offered by small dealers **ALWAYS RESULTS IN FURTHER ORDERS** for our goods. If you are not among the fortunate ones who use our records, send your sample order at once and test our claims.

How to Get Them.

Send *\$5 cash with order* for any twelve selected from this catalogue. If less than twelve are wanted, 50 cents each.

If full amount of cash does not accompany order goods will be sent C. O. D., *provided a deposit is sent with order to guarantee express charges*. **REMEMBER!** A **DEPOSIT MUST POSITIVELY ACCOMPANY ALL C. O. D. ORDERS**. Express company's charges for returning money can be saved by sending full amount of cash *with order*.

How to Send Money.

Remit by bank draft, P. O. money order, express order, or registered letter—**NEVER BY PERSONAL CHECK**, as that method occasions delay in the shipment of goods.

How to Order—Read Carefully.

Write orders plainly, adding full address and shipping directions. Order by number only.

Where it is possible, always **STATE WHETHER THE RECORDS ARE TO BE USED WITH HORN OR WITH HEARING TUBES**. This will enable us to give your order more intelligent attention than we could otherwise do, and will insure better results in the use of the records.

If possible, **MAKE A DOUBLE LIST, NAMING "SECOND CHOICE"** of selections in the event those preferred first are not in stock. Unless this is done **WE TAKE THE LIBERTY OF SUBSTITUTING** records of our own selection when necessary—**EXCEPT WHEN DIRECT INSTRUCTIONS NOT TO DO SO ARE GIVEN**. Enclose a list of your records when it is desired that we substitute, as we will then be able to avoid duplicating.

Records are always sent by express, being too fragile to be safely transported by mail. Great care is exercised in packing, and all our receipts from express companies and other carriers are for goods forwarded "*in good order*." Our liability ceases when goods are delivered to carriers. **WE GUARANTEE ALL OUR GOODS TO BE EXACTLY AS REPRESENTED**; however, we will take back and exchange any records which, upon examination, are unsatisfactory, provided they are shipped to us *immediately upon their receipt*, at the purchaser's risk, and with *all charges prepaid*; and are received at our office in same condition as when forwarded by us. This offer does not apply, of course, to records which have been in use.

Columbia Band Records,

OUR BAND RECORDS ARE THE STANDARD OF MUSICAL EXCELLENCE IN THIS LINE THE WORLD OVER. THEY ARE UNIVERSALLY USED AND ARE PERFECT REPRODUCTIONS OF THE WORK OF THE GREATEST MUSICAL ORGANIZATIONS OF THE CENTURY.

MISCELLANEOUS RECORDS

We have always on hand a large assortment of miscellaneous records, including usually such desirable classes as banjo and song, xylophones, minstrel selections, novelties in vocal and instrumental music, and talking records, of which there are not a sufficient number of cylinders of each selection to warrant listing them in our Catalogue. We will be glad to make selection from this stock at any time, and can always furnish attractive and interesting records. If you do not find in our lists the record you want, ask us about it. We may have it in our Miscellaneous Stock.

THROUGH THE NEEDLE'S POINT.

BY CLEVELAND MOFFETT.

IT has long been considered a difficult thing for a camel to pass through the eye of a needle, but the science of these latter days—the same science that has given the world the telegraph, the telephone, and the electric railway—has made it possible for men, women, and children, for camels, yes, and entire menageries, not only to pass through the eye of a needle, but to pass through the point of a needle, and having thus passed through, to sing and speak, to roar and bark and whinny—in short, to make whatever sounds they please, and be heard after making them thousands of miles away. To-day the great Patti can sing her immortal songs in her castle in Wales and be heard, through the needle's point, in San Francisco and Honolulu and a hundred other places at the same time. And so of the world's great orators and entertainers, the great thinkers who stir the heart, and the merry people who aid digestion. In fact, whatever the cities have in their theaters and churches and concert halls that is best worth hearing may be heard quite conveniently, and with only the slightest falling off in quality, by the denizens of the most remote village, by dwellers on the distant alkali plains, by lonely huntsmen in the woods—and all through the point of a needle—the needle of the gramophone, which traces the undulations of the sound-waves as they are preserved on indestructible records and reproduces them through that wonderful little instrument.

Aladdin's trick seems to have literally been performed in our time, and New York, Boston, London, and Paris may be picked up now by whomsoever will, and whisked off through hundreds of miles and made to strike all their beautiful instruments, pianos, and violins, and blaring horns, and sing with full chorus of voices, and otherwise disport themselves for the amusement or instruction of the humblest provincial.

Whoever buys a gramophone buys a box at the opera, rents a pew in a city church, secures permanent admission to the best music halls in the country, can order out the most dashing military band our army has at a moment's notice, can make the great piano-players of the day his obedient servants, and can do a great many other things which would have put somebody in danger of being roasted for witchcraft had they been attempted by our forefathers.

And let it be understood clearly at the start that this is no expensive arrangement, to be easily injured, nor is it anything that requires batteries or electric contrivances for its running. It is as simple and compact as a music-box, and is wound up in much the same way, while the disks which preserve the sound-records are flat surfaces of gutta-percha, about the size of griddle cakes, and are practically indestructible. They may be thrown about or scratched, or left with the children to play with, and when put back under the needle after months of this treatment, they will give out the original words or music with unchanged sweetness and distinctness. That is the first point, and another point is, that the singing of the gramophone really is singing, not squeak-

THE RECORDS.

ing, and the talking is real talking, as if the speaker were there before you. When you hear a street fakir selling his corn cure, through the gramophone, you are almost in doubt whether the man is not actually in the room, and a person blindfolded, who knew nothing of the gramophone, would be quite sure he was in the room. So perfect is the method of reproduction that the human voice comes out of the receiver, whether in speech or song, practically as it went in, and thousands of people may listen to it at one time, for there is no need here of bending anxiously over an ear-trumpet; you hear what is going on whether you will or not. A cornet solo played in the Metropolitan Opera House from the gramophone fills the whole auditorium.

And now let us see what this wonderful little instrument is going to do for people who live in the towns and smaller cities all over this country. In the first place, take the young ladies, for instance, who, after four years at Vassar College or Smith College, or some other institution, return to their little homes with many graces and accomplishments, particularly an appreciation of the best classical music. They find themselves suddenly in uncongenial surroundings, where most of the pianos are out of tune, and most of those who play on them play badly. The gramophone gives them a breath of art life in the rendering of the great compositions they love by the finest performers. With this they have masters to imitate in their own parlors, sources of inspiration ever present.

Then take the boys. What one of them does not love to hear the banjo played, a lively strumming of the strings by a cunning hand? The gramophone gives them what they want, and the best banjo-playing—gives it to them whenever they choose to listen. And if they tire of the banjo they can turn on a crashing brass band, with marches and songs of the regiment until their hearts beat with valor.

And the old folks themselves, with hearts ever fresh for the old emotions, will find themselves won over by the gramophone on many a winter's evening, otherwise lonely, when they will gather about fires of crackling logs, in farmhouse and country home, and listen to the dear old songs, "Annie Laurie" and "Down on the Suwanee River," and "The Last Rose of Summer," and the old glees from years ago, sung to them, not by amateurs from the village choir, but by the greatest

artists of the day—sung through the needle.

And then the comic songs—every one likes these now and then, but few who live away from the cities ever hear them sung in the best style; they must content themselves with the whistlings of the village lads, who pick the airs up as best they may a year or so late. But now the gramophone, with its disks kept closely up to date, gives the country the best that the city has—those much advertised entertainers from the music halls of London and Paris, whose enormous salaries are told of in the newspapers. All these the country may have now almost as soon as the city has them, and at nothing like the price.

One of the most remarkable uses to which the gramophone will eventually be put is in the teaching of modern languages. There will be no reason why American boys and girls should not hereafter learn French, German, and Spanish, as well as other European languages, without journeying to distant lands or taking expensive courses under professors who often teach them little. The difficulty with the present system of language instruction is that the pupils do not get an opportunity, at least not sufficient opportunity, to hear the sounds of the language they are learning often enough and distinctly enough to acquire them by imitation, which is nature's method and the only efficient method of acquiring languages. He or she who does not learn French or German or Spanish as a little child would learn them, never learns them well. This matter of language acquirement is entirely a trick of the tongue, and no amount of theoretical study or delving in musty grammars will be sufficient for excellence if there is wanting constant and daily practice in imitating the actual sounds. Take the French "u," for instance. How can any one possibly learn to pronounce it, or the German "oe," unless he have unceasing opportunity to hear these difficult sounds spoken as the natives speak them? Nor is it sufficient that the professor or teacher be an expert linguist, for with large classes and a limited number of hours' instruction per week, not even the aptest pupil will be able to seize in memory, and reproduce in speech, sounds that have no equivalent in his own tongue. It is a matter of common knowledge that children who have grown up under the care of French or German governesses acquire French and German without study and without effort,

and yet acquire them perfectly, as their companions in the schools seldom do, simply because the former have daily and hourly opportunity for learning by imitation. That is the whole secret of mastering languages—learning by imitation—and the gramophone, with its unerring facility in reproducing sounds, will yet give boys and girls all over the country, yes, and grown people as well, such opportunity for really acquiring the accent in modern European languages, and for picking up useful phrases of ordinary talk, as has never been offered before by any system of instruction, whether by speech or books, and could not be enjoyed save by those who have the time and money for years of foreign residence.

There seems to be no reason why the whole Meisterschaft system, which has been found so valuable in our schools and colleges, may not be put down on the rubber disks with parallel sentences in English and French, English, German, etc., and the student learn these, not through the eye as heretofore, but through the ear, making the instrument speak them as many times as is necessary until the tongue is able to give perfect imitation of the rolling "r" or the guttural "ch" or the various nasal sounds so difficult for Americans to acquire without actually living among the people who use them. Whoever purchases a gramophone with a set of modern language disks, would then have at his service day and night a whole corps of polyglot professors. And it is likely that in the near future modern languages will be taught in our schools and colleges with the aid of the gramophone, each schoolroom being equipped with one of these wonderful instruments just as universally as schoolrooms are now equipped with globes and blackboards.

Now coming back to what the gramophone will do for the country, it is plain that a great change will soon be wrought

in the farmhouse Sunday—a dreary enough thing in the past. No more wheezy melodeons laboring away in cheerless parlors, no more feeble singing of hymns by untuned voices, but the finest anthems as sung in churches on Fifth Avenue, and the beautiful solos of high-priced specialists, and the chanting of surpliced choirs, and the harmonies of double quartets, not to mention inspiring addresses by the greatest preachers of the day.

Not only in the home is the gramophone to find itself a cause of entertainment, but already small and large private gatherings are using this many-sided instrument as a public entertainer; and a program which

THE FAMOUS GRAUS MOUNTAIN CHOIR IN NATIVE COSTUME.

includes the best bands, the best story-tellers, the best performers on various instruments, the best vocal quartets, can quickly be made up from the rapidly growing repertoire of this wonderful instrument. Here is a specimen program which speaks for itself, including even so great a novelty as the famous Graus Mountain choir, whose songs are perfectly reproduced:

Readers will find the numbers for each selection in the latest list of records.

It is plain that for pleasure, for instruction, and for general benefit the gramophone must soon become a real boon to millions of people whose lives are passed far from the amusements and advantages of our great cities. Its uses are numberless as well as its possibilities for general entertainment. The girls of a family can, in a few hours, make up a program of disks that will afford their friends far more pleasure than any ordinary party, and if they want dancing, they may dance with light hearts and heels, for the gramophone gives you Sousa's band or a Hungarian orchestra, for waltzes and two-steps, and that is better music surely than any local performer could offer. And if they wish to sing "Auld Lang Syne" before breaking up, the gramophone will lead the singing with a good grace and play the guests out of the house with "Home, Sweet Home."

THE GRAMOPHONE.

The illustration is of the improved \$25.00 style, which is handsomely finished in oak with rich trimmings—runs by a perfectly governed clockwork motor.

The National Gramophone Company, proprietors of the Gramophone, 874 Broadway, New York, are so confident that this \$25.00 style will fulfill its claims, that it is willing to guarantee perfect satisfaction to any reader who will order the Gramophone and a dozen or more of the records mentioned in the above program, paying \$25.00 for the Gramophone and 50 cents each for the twelve additional records (fourteen records in all, two

being free). The distinct understanding being that if the Gramophone does not give satisfaction it can be returned at once and the money refunded, less the express charges.

Catalogue and further particulars may be had by addressing THE NATIONAL GRAMOPHONE CO., 874 Broadway, New York.

Columbia Records

All the most successful and most popular makers of records for talking machines are now employed exclusively in our service. These include Vess L. Ossman, Geo. J. Gaskin, Len Spencer, J. W. Myers, Russell Hunting, Dan W. Quinn, Miss Minnie Emmett, Will F. Denny, Geo. Schweinfest, Geo. W. Johnson, Billy Golden, Steve Porter, J. J. Fisher, Roger Harding, the Gilmore Brass Quartette, the Columbia Orchestra, the Imperial Minstrels and the Spencer Trio.

Our great facilities—our establishment being manufacturing headquarters of the world—enable us to supply records matchless in quality at less than the cost at which others can make inferior ones.

Price 50 cents each; \$5.00 per dozen. Send full amount of cash with order.

Write orders plainly, adding full address and shipping directions. Order by number only.

Remit by bank draft, P.O. money order, express order or registered letter—NEVER BY PERSONAL CHECK, as that method occasions delay in the shipment of goods.

If possible, MAKE A DOUBLE LIST NAMING "SECOND CHOICE" of selections in the event those preferred are not in stock. If this is not done WE TAKE THE LIBERTY OF SUBSTITUTING records of our own selection when necessary—UNLESS DIRECT INSTRUCTIONS NOT TO DO SO ARE GIVEN.

Records are always sent by express, being too fragile to be safely transported by mail. Great care is exercised in packing, and all our receipts from express companies and other carriers are for goods forwarded "IN GOOD ORDER." Our liability ceases when goods are delivered to carriers.

The Right Instrument and the Right Financial Plan for You—

PHONOGRAPHS

"As Good as the Best"

AND RECORDS

"Better than the Rest"

THE sale and distribution methods of the Brenard Mfg. Co. rest upon recognition of the fact that the Job is not finished until the product is in the hands of a satisfied owner. It is a most important factor in the substantial profits of Claxtonola Dealers.

If you want to know the value of the Claxtonola Sales Franchise, ask the merchant who sold some other "machine" before he took up the Claxtonola line.

We are proud of the fact that many of our dealers, as well as our buyers, chose the Golden Throated Claxtonola after careful comparison with other makes.

Factors Which Have Prompted Over 4000 Merchants to Become Claxtonola Dealers

1. A thorough appreciation of the selling appeal made by a Phonograph which is a true musical instrument with unsurpassed musical qualities.
2. A desire to give the customer dollar for dollar value, inside and out.
3. More Service and less bragging back of the Claxtonola Franchise.
4. Real national distribution.
5. Consistent and effective direct advertising which brings the Claxtonola name and its Golden Throat Fame to the people.
6. A complete line, including Console, five cabinet models, special tea car model, table model and Portable Phonograph.
7. Dealer Helps which actually "help" to make sales and to increase store profits without materially adding to dealers' overhead.
8. No middleman. Every Claxtonola Dealer is in every sense a part of the Brenard organization and gets the direct benefit of his efforts.
9. The Brenard Plan teaches Dealers how to find the hidden buyer and how to reach him.
10. Financial Co-operation.

The finest negro talent *ever assembled!*

COLUMBIA rightly claims leadership in the negro record field.

For, where is there a more popular—yes, worshipped celebrity than Bessie Smith, who records exclusively for Columbia? It's a fact that the police have to be mobilized to handle the crowds waiting outside the theatre where she is to appear. And when she sings—well, her audience is in a trance of ecstasy.

Then there is Clara Smith and her Jazz Band, who keep the S. R. O. sign on the job when they take possession of a theatre. And you will

travel over many continents before you can find a team of entertainers who can beat George Williams and Bessie Brown. Edith Wilson, too, is a headliner who can dominate any audience.

The fact is that the finest talent among colored artists records exclusively for Columbia. You are always sure to have just the music you want, when you want it, for your customers. Now is the time to get your orders in for these wonderful selling records.

The "Big" Little Three

The Most Complete Line of Records for Children

Retail

15¢

There are no other records like the Cameo Kid or the Uncle Wiggily Series. They are seven inch double faced records, put up in gayly illustrated multi-colored envelopes. Although smaller in size they have the same quality as the very best of the larger size records.

These records are fast sellers and are sure to bring hundreds of new buyers to your store.

THE AEOLIAN CO. ANNOUNCES THE VOCALION RECORD

Aeolian-Vocalion Record Now Ready for the Market—Embodies New Recording Features—Is Hill and Dale Cut, Ten and Twelve-Inch, Single and Double Faced—Will Be Marketed Through Vocalion Representatives—Recording Studio in New York Splendidly Equipped

The Aeolian Co., New York, is now ready to announce to the talking machine trade the new Aeolian-Vocalion record. The first list of records is now ready for general distribution, and plans are being formulated whereby the merchandising of this record will be conducted in the thoroughly efficient manner which characterizes all Aeolian merchandising plans.

Behind this important announcement in behalf of the Vocalion record lies an interesting history of progress and development. The Aeolian Co. has never been satisfied to place any product on the market bearing its name, without knowing that this product represented something different and distinctive. In fact, it has been this constant aim to give the musical world something new that has made the Aeolian Co. world-famous and a recognized leader in international musical development.

The Aeolian Co. in its very successful history has always endeavored to create rather than to imitate. It has been a pioneer in the player-piano and organ fields, and its player-piano products have won recognition the world over. The Duo-Art reproducing piano, the company's most recent development in the player-piano industry, has won enthusiastic endorsement from the most famous musicians, who acclaim it as one of the greatest achievements in the history of music.

When the Aeolian Co. a few years ago decided to manufacture talking machines it did not make any immediate announcement to this effect, but for several years the company's technical experts thoroughly investigated the scientific features of the talking machine. Every known improvement and scientific achievement was given careful consideration during this period of investigation, and this research was especially significant in view of the fact that the Aeolian Co.'s technical staff comprises not only musicians and artisans of great ability, but several scientists of note. For several years these men labored to develop the phonograph, working for two years in collaboration with Professor Dayton C. Miller, of the Case School of Applied Science, one of the greatest living authorities on tone and tone quality.

Finally in 1914, these technical experts decided that they were ready to introduce the Aeolian-Vocalion phonograph and this instrument was presented to the musical world as an instrument that embodied numerous improvements of great musical value. The subject of musical tone was thoroughly discussed in all literature that the company issued, and when the instrument was placed in the hands of the dealers, it carried with it the absolute

introduction of the "Graduola," which was embodied in the Vocalion in order to permit of tone control. The "Graduola" has won recognition as one of the simplest and most efficient means of phonographic tone control yet devised.

Where the Vocalion Records Are Made

After the perfection of the Aeolian-Vocalion phonograph and its subsequent success with musicians and the general public, the Aeolian Co. continued to experiment in the different realms of phonograph research, but the company's technical experts finally reached the stage where they were in a position to tell the officers of the company that in their opinion "the Aeolian-Vocalion phonograph represented the acme of perfection, musically and scientifically."

In this report there was also submitted a suggestion that the musical prestige of the Aeolian-Vocalion phonograph could be further strength-

lian Co. decided that a talking machine record bearing the Aeolian name was the only practical solution of this problem. It was determined that nothing would be left undone to make the record bearing the Aeolian name a worthy companion to the other famous Aeolian products, and with this determination in mind, the technical staff was instructed to concentrate its efforts upon the production of such a record.

For two years these scientists and tone experts experimented with new and different systems of recording. No time or expense was spared in the hope that one of these new systems might be utilized in the production of a record that would fully satisfy the Aeolian executives and technical staff.

Experimentation was going forward in the Aeolian technical laboratories when a cablegram was received at Aeolian Hall from the company's English branch, saying that an inventor had submitted samples of a phonograph record which was of marked superiority, and that there was a possibility of acquiring the process by which it was made. Following this cablegram a number of specimen records were received and given exhaustive hearings and tests.

In order to insure the acquisition of so valuable a method the president of the Aeolian Co. made a special trip to London in order to investigate the matter personally. He found that the improvements in the new process were so important that its inventor had already been able to secure patents in all of the principal countries.

Further investigation strengthened the first favorable impression the records had made, and after a short period of negotiation, the patented rights to the new method were purchased, and the men responsible for the new record were engaged to continue the development of the system under the auspices and in the laboratories of the Aeolian Co.

Discussing this method of recording from a scientific standpoint one of the Aeolian Co.'s technical experts remarked:

"As is generally understood, all sounds—musical tones included—are conveyed to the ear by what are known as sound, or tone waves. These waves, while intangible and invisible, can, by means of recently devised scientific appliances, be observed, measured and accurately estimated, through certain effects they produce.

"While investigation of musical tones through various apparatus is not new, no such accurate observation has hitherto been possible, and it is of more than passing interest to know that the Aeolian Co., in addition to its own completely equipped acoustical laboratories, has been in a position to profit by these new appliances and researches of their inventor, who is recognized as one of the most noted contemporary authorities on the phenomena of sound.

"It has been established that all musical

endorsement and guarantee of the Aeolian Co. The success instantly achieved by the Aeolian-Vocalion reflected the importance of the new scientific and musical qualities which it embodied.

The distinctive and outstanding feature of the Aeolian-Vocalion was its tone quality and the

ened if a record was perfected that would harmonize completely with the scientific perfection of the Aeolian-Vocalion. In other words, these experts expressed their belief that further progress in the phonograph field was not possible, except in the development of the record.

With its customary progressiveness the Aeolian

tones are composite in character—that is, each tone is composed of a greater or less number of individual tones. Every composite tone, such as a note of the human voice, the violin, or other instrument, has a fundamental or basic tone, and a long or short series of overtones as well.

DEATH OF LIEUT. JAMES R. EUROPE

Leader of Famous 369th U. S. Infantry Band Meets Tragic Death in Boston—Organization Recently Made Number of Pathé Records

The tragic death in Boston on May 9 of Lieutenant James Reese Europe, better known as "Jim Europe," after an altercation with a member of this famous band, ends a career that was one of the sensations of the music world.

Jim Europe was born in Mobile, Ala., in 1881, but by reason of his long metropolitan career he is properly considered a New Yorker. After picking up musical education wherever he could, he became not only a conductor of individuality, but a composer of no mean skill, an accomplished pianist and a musician who could play any instrument in the band.

Before the war he was the most popular leader of New York's dance hall orchestras, and the one man who made jazz music the favorite music

Lieut. J. R. Europe

of the day. When the war started Europe enlisted, and soon became the leader of the most famous band of the American forces. He led his "Hell Fighters" (369th United States Infantry) band overseas and made American jazz the favorite music of France. This famous fighting band cheered the boys "over the top" and was a very determined factor in helping win the war. Europe's band played for Generals Pershing and Gouraud, and at their direction went through France, playing at the various rest camps and hospitals and in Paris.

Since his return from the battlefields of France, Europe's jazz band has made a sensational tour in this country, playing to packed houses in every city. Everyone that has heard this remarkable music has gone wild about it.

Although Europe has died, his wonderful mu-

sic will fortunately live forever. This famous leader and his "Hell Fighters' Band" have made records for Pathé of all of the favorite selections. These Pathé records give Europe's music at its best. By means of these records the jazz music, inaugurated and perfected by this wonderful leader, will stand as a lasting memorial to the skill of Lieutenant Europe and enable American dance lovers to always hear this splendid dance music.

LATEST CHARMAPHONE LITERATURE

The Charmaphone Co., manufacturer of the Charmaphone phonograph, has just issued an attractive folder featuring its complete list of instruments. This company has opened executive and sales offices at 39 West Thirty-second street, and during the past few weeks has established important agencies with dealers in different parts of the country.

The Charmaphone phonograph is manufactured in its entirety at the company's plant in Pulaski, N. Y., and this factory is splendidly equipped to give the dealers efficient and satisfactory service. One of the most popular models in the Charmaphone line is the model No. 80, which embodies all the desirable features to be found in a successful talking machine. All models of the Charmaphone are equipped to play all makes of records without the use of an attachment.

HANDLING THE COLUMBIA LINE

PERFECTS NEW TYPE OF MACHINE

F. D'A. Goold Applies the Principle of the Violin Sound Chamber to the Reproduction of Talking Machine Records—Also Invents a New Universal Reproducer

F. D'A. Goold, who some two years ago produced a new type of talking machine without metal reproducer, diaphragm or tone arm, which at the time was described in *The Talking Machine World*, has in the interim worked to perfect this instrument, and has just completed a new model much smaller in size than the original, and in fact corresponding in size to various machines now on the market.

In the new machine music is reproduced through the medium of a wooden sound chamber similar in size to the body of a violin but of square shape. The needle arm is attached to one corner of the box, the other corner being attached to the side of the cabinet, so that the reproducer can move freely. Through clever arrangement hill and dale records can also be played on the new model. The reproduction is pleasing, particularly in the playing of instrumental numbers, although it also brings out the qualities of the voice very acceptably. It is probable that arrangements will be made to market the machine in some form or other in the near future. Mr. Goold has also perfected a new universal reproducer which he expects to offer to the trade shortly.

Mr. Goold is a veteran talking machine man and for many years was connected with laboratories of prominent concerns both in Europe and this country. This experience is enabling him to evolve an entirely new principle in reproduction that is distinctly interesting, regardless of its value as a commercial proposition.

The Standard Accessory Corp. has been incorporated in Milwaukee to manufacture record flashers, equipment and accessories for talking machines. The capital is \$50,000.

Cleveland Studebaker branch, the patients of the Marine Hospital were given a big treat recently. Ted Lewis and his band, exclusive Columbia artists, appeared recently in this city with the Greenwich Village Follies and he gladly consented to entertain the veterans at the hospital. The rest of the company also wanted to do their bit and the local Studebaker branch furnished the transportation without charge.

Through the courtesy of the Cleveland Plain Dealer and the Union Trust Co. radio fans in this vicinity were also entertained by Ted Lewis during his stay here. Accompanied by his band, Mr. Lewis gave a radio concert at the Union Trust Co.'s broadcasting station which was enjoyed by 50,000 radio fans. So great was the interest in the concert that repeated telephone calls came into the laboratory during the performance asking for the many old favorites which Ted Lewis had made popular on Columbia records.

The firm of Lozier & Gandy, dealers in electrical equipment, La Grange, Ga., have dissolved partnership and in the near future C. W. Smith and Mr. Lozier will open a music store with a complete stock of talking machines and records and musical instruments. The establishment will be admirably fitted up.

Field Staff Meets in Conference at Factory—Sales Promotion Plans and New Policy Discussed—Dinner and Entertainment

The entire field organization of the Pathé Phonograph & Radio Corp. recently met in conference at the main factory of the company in Brooklyn for the discussion of plans for 1923. It is reported that a very optimistic spirit prevailed as to the trade conditions and the business outlook, and the various sessions were taken up by the discussion of sales promotion plans and outlining a policy for marketing the Actuelle records and the proposed new line of Pathé phonographs.

Among those present were W. E. Hotchkiss, manager of the Chicago office; Charles F. Usher, special field representative; A. R. Saunders, Ohio and Kentucky representative; Thomas J. Murphy, New England; J. A. Ryan, New York City representative; H. T. Leeming, manager of sales; W. A. Dittmer, secretary of the corporation; F. D. Lewis, manager of the Radio Division, and H. D. Rose, manager of the recording laboratory.

E. A. Widmann, president of the Pathé organization, entertained the representatives at dinner at his home. Following the dinner the entire party went to see the "Greenwich Village Follies."

SYNCHRONIZES "TALKER" AND FILM

Successful Demonstration of Talking Motion Pictures Held Before Newspapermen by Massachusetts Inventor—Designed for Home

EVERETT, MASS., February 6.—Synchronization of the motion picture and the talking machine, the aim of scientists since the beginning of the two industries, has been achieved by an invention of Jules A. Perrault, of 63 Madison street, this city, assisted by Dr. W. Alvan Hitchcock, a noted oculist, of 135 Newbury street—at least, that is the claim made.

The principle of Mr. Perrault's idea lies in the perforation of the motion picture film so that the action shown on the screen would be timed exactly with the sound produced by the talking machine.

He invented a film perforator that was mechanically true to one-ten-thousandth of an inch. The ordinary standard film used in motion picture projectors is perforated only at each side. The machine invented by Mr. Perrault makes twelve perforations on a film much wider than the standard. The film, specially designed by Mr. Perrault, is non-inflammable and costs a fraction of the price of the standard film.

In a demonstration given to newspaper representatives recently Mr. Perrault ran through the ordinary projection machine 300 feet of standard film. He then projected through his special machine the same subject on the specially prepared film, synchronized with a talking machine record. The pictures ran absolutely true to the music on the disc.

The combined phonograph and projection machine invented by Mr. Perrault is in the form of a cabinet and is intended primarily for household use. The machine is so constructed that the talking machine can be run independently of the projection machine, although the same motor controls both. The motion pictures also can be shown independently of the phonograph. Experts who have seen the demonstration are

of opinion that the invention can be used to great advantage in the instruction of school children.

Several different films and records, all perfectly synchronized, were demonstrated. The first showed a series of setting-up exercises in which William Kelleher, former Boston College football captain, played the part of instructor. Each command could be heard distinctly and the motion of the body was in time with the music and commands. Another film was a jazz selection and dance in which the dancer kept perfect time on the screen with the music.

The inventor has succeeded in removing the fire hazard from the films used in the projector, a feature which not only makes it perfectly safe to keep the films in a home without taking extraordinary precautions, but also makes the complicated machinery required in the reeling of ordinary motion pictures unnecessary. An ordinary thirty-two-candle power electric bulb furnishes sufficient light for successful picture projection from the cabinet. The motor which operates the projecting machine and the talking machine is run by electricity.

CAMPAIGN TO PROMOTE MUSIC

Storm & Shipley, Frederick, Md., Overlook No Opportunities of Developing Interest in Line Handled by Them and Music Generally

FREDERICK, MD., February 7.—The firm of Storm & Shipley, 201-3 North Market street, this city, has been conducting an active campaign the past Fall and during the Winter. Last October during the Frederick County Fair they had a Victrola exhibit during the entire week and in November the Eight Victor Artists gave a concert here under the auspices of Storm & Shipley. In January the Quartet of Victor Artists, consisting of Olive Kline, soprano; Elsie Baker, contralto; Lambert Murphy, tenor; Royal Dalmun, baritone, gave a concert in Frederick under the auspices of this enterprising concern. Besides the advertising at the fair and the presenting of these artists to Frederick music lovers (the concerts being a musical treat which was greatly appreciated and also served as a source of publicity for this firm) they have also been doing extensive newspaper advertising, which has brought very good results, acting as a decided stimulant to sales.

The name, with the highest honors of a Camp Fire Girl, that of torch bearer, was bestowed on Miss Hempel at a Council Fire held in her honor the day of her concert in Kansas City, Kan. In answer to the ceremonial, the prima donna sang "Invocation to the Sun God"—a Zuni Indian traditional hymn, and the "Night Wind," by Farley. Miss Hempel is now on a tour of the Southwest, which includes twenty-five "Jenny Lind" concerts in the principal cities in this section of the country.

"We have had such good success with your new Silent motor that we feel it is due your company to receive some commendation upon the qualities of this motor. Since using same, we have had the satisfaction of knowing that to date we have not had a broken spring and the motor will do all that you claimed for it.

It is indeed a great pleasure to know that our machine is as good as its motor, as it is an old saying among the trade that a talking machine is no better than its motor, and since using your motor and finding that it is giving entire satisfaction, we feel that we have a machine that is second to none on the market. We only hope that our future connections will be as pleasant as those in the past. The writer wishes to extend to your organization congratulations for your motor and the quality for which it stands. It is our aim to make our product the same standard.

With best wishes, we remain."

EQUIPPING NEW LANDAY STORE

Zimmerman-Bitter Co. Secures Sixth Avenue Store Contract—Closes Other Important Contracts—Final Rush Before Holidays

The final rush of remodeling and equipping talking machine stores before the beginning of the late Fall and holiday business is being completed by the Zimmerman-Bitter Construction Co., New York City, according to A. Bitter. Among the recent installations completed by this company is that of the Berger Talking Machine Co., of Ridgely Park, N. J., consisting of six hearing rooms, record racks, sheet music and musical instrument departments. The entire store has been redecorated in French period design. The store of Max Liaks & Son, of 143 Second street, Passaic, N. J., has added complete equipment for a phonograph department.

Emanuel Blout's store in Flushing, L. I., has been equipped with eight hearing rooms, piano rooms, record racks, musical instruments, sheet music, music roll and small goods departments. A new musical instrument department has also been added to the Blout store in Bayonne, N. J., and a similar department has been added to Landay Bros.' New Haven store. The Good Luck Talking Machine Co., New York City, has added additional booths and musical instrument cases.

The Zimmerman-Bitter Co. is at present engaged in enlarging the showroom of Landay Bros. at 311 Sixth avenue and is also equipping the new Landay store at Sixth avenue and Thirty-fourth street. This installation will comprise thirty-five hearing booths and complete equipment throughout all departments, including musical instrument, sheet music, small goods racks and showcases, etc. The main floor will be finished in walnut and the second floor in French grey. Mr. Bitter states that conditions are particularly promising for a good Fall business and that his company anticipates continued activity in the installation of equipment.

INTRODUCES NEW TYPE LOUD SPEAKER

Radio Specialties Apparatus Co. Places "Excello" Loud Speaker on Market

A new phonograph type loud speaker has recently been placed on the market by the Radio Specialties Apparatus Co., Upper Montclair, N. J., which is being merchandised under the trade name of "Excello." This amplifier is designed with the idea of permitting the owner of a phonograph and radio set to combine the two, using the phonograph horn as the loud speaker. The device is attached to the tone arm of the talking machine and is finished in gold, silver and nickel plate to match the various tone arms. It is adjusted by the turning of a knob, thus making the music, both vocal and instrumental, loud or soft, as is desired. The Excello fits any type of tone arm either by simply attaching it to the tone arm or, in the case of certain old-style tone arms, various removable adapters are used, thus making a complete unit which may be changed at will.

The Radio Specialties Apparatus Co. also manufactures the Excello horn type amplifier, which has all the adjustment features of the phonograph type and is light in weight. This amplifier is made in an artistic design, which makes it appropriate for use in the home. The horn type comes in three finishes—standard black, crystal black and mottled green. H. G. Thompson, president of the Radio Specialties Apparatus Co., states that these two types of instrument have met with approval in the talking machine trade.

NEW COLUMBIA LABELS READY

Distinctive Set of Labels Will Appear on All Columbia Records—Attractive Design With an Effective and Distinctive Display.

Commencing with the January supplement as a unit and on all repressings of previously listed records starting at once, the Columbia Phonograph Co. will use a new label that is distinctive and entirely different from the labels used in previous years. A reproduction of the label is shown herewith, but the black and white reproduction hardly does justice to the attractive colorings that characterize the new series of labels.

According to an announcement sent out by Geo. W. Hopkins, general sales manager of the

The Artistic New Columbia Label

company, the new labels will be classified as follows: gold label for a special list of symphony artists; silver label for the balance of symphony artists; bronze label to replace the present blue label, or 75-cent record; green label to replace the present green label, representing records in the foreign language catalog made in America, and the blue label for foreign

language records made abroad. While the color for each classification is different than the other colors in the series, the general design for all of the labels is similar, with the word "Columbia" prominently displayed between two unfolded red, white and blue flags and the new Columbia trade-mark at the top.

Columbia dealers who have received samples of the new labels are enthusiastic regarding their artistic design and their advertising value, as there is a minimum of type matter with a most effective layout. It is understood that coincident with the issuance of the new labels a new numbering system will also be announced.

PROGRESS ON NEW VICTOR PLANT

OAKLAND, CAL., November 3.—Construction work on the Western plant of the Victor Talking Machine Co. started here a few days ago, and Architect William Knowles, of Oakland, plans to have the structure completed by January 15 of next year. The new building, located at the foot of Seventy-eighth avenue, will have a frontage of 120 feet and a depth of 200 feet, being entirely of brick construction. The local factory will entail a cost of \$130,000 for its erection and will employ about 200 people when operated.

F. B. JENKINS, JR., VISITS NEW YORK

F. B. Jenkins, Jr., manager of the wholesale Victor division of the J. W. Jenkins' Sons Music Co., was a visitor to New York recently after spending a few days at the Victor factory. Mr. Jenkins spoke enthusiastically regarding business conditions in his territory, stating that the Victor dealers throughout the Middle West are apparently enjoying one of the most prosperous eras in recent years.

CONGRESSIONAL LIBRARY MUSIC

Music Division Now Claimed to Be Largest in World—O. G. Sonneck in Charge

WASHINGTON, D. C., June 7.—Recent accessions have made the Library of Congress music division the largest in the world, it is announced.

For fifteen years O. G. Sonneck, the chief, labored to make the division representative of the best in musical lore. In 1917 he resigned to become associated with G. Schirmer's, Inc., New York. The position was left unfilled until January, 1922, when Carl Engel, the incumbent, was made chief. Engel is carrying on the work along the lines laid down by his predecessor.

Several years ago, when Portugal got in hard lines, King Manuel packed up his country's musical library and put it on the block in London. Representatives of the United States Government gobbled it up at a song and it reposes to-day in a snug place on Capitol Hill. The Portuguese derive most of their inspirations from Spanish and Italian airs, but they have also created considerable of their own. Senhor, as a young man, does not consider his education complete unless he can thrum violin or viola, mandolin or guitar, and quite often his voice develops the most pleasing cadences.

Old Portuguese folk songs are an integral part of Portuguese life and they have found their way long since to newer possessions, the Azores Islands and Madeira, where they gain an added resonance when thrown against nearby mountainsides. They are not less charming when suited to the plantation banjo of the southern United States or the smart twangs of the stately 'cello along the Western seaboard.

Songs of the American colleges are there in generous number. No graduate, be he the oldest in captivity, can name more than a few of the airs which the library holds from the classic pile he once called campus and study hall.

"BLUE HOOSIER BLUES" POPULAR

Song, Originally Popular as Dance, Now Being Sung by Leading Vaudeville Artists

"Blue Hoosier Blues," a novelty recently added to the catalog of Leo Feist, Inc., and which had its original popularity as a dance, is proving one of the big favorites with vaudeville singers. The number of leading vaudeville artists who have arranged to program it is constantly being added to. Among others who are singing "Blue Hoosier Blues" are the Duncan Sisters, Van and Schenck, Wilton Sisters, Healy and Cross, Rome and Dunn and Dorothy Wahl. "I'll Hop, Skip and Jump Into My Mammy's Arms," another new Feist release, is also proving popular with vaudeville singers. This latter number is by Harry Pease, Ed. G. Nelson and Irving Bibb. The first two writers are responsible for such successes as "Peggy O'Neill," "Fancy Nancy Clancy" and others which have achieved popularity.

"ROSES OF PICARDY" SCORES

Chappell-Harms Finds Ballad Rapidly Increasing in Popularity and Sales

The Chappell-Harms number, "Roses of Picardy," is fast becoming one of the most popular high-class ballads issued in some years. Sales of this number, particularly in the last few

months, have mounted so steadily as to give it the importance of an unusual hit. A long list of concert and vaudeville artists is programming the number and the reception of renditions by audiences everywhere demonstrates that "Roses of Picardy" has at last been recognized as one of the best ballads ever issued by a high-class music publishing house in recent years.

FAREWELL DINNER FOR JACK MILLS

Head of Jack Mills, Inc., Prominent Music Publishing House, Honored by Friends

Jack Mills, of Jack Mills, Inc., sailed for London in the latter part of May. On Monday evening a farewell dinner was tendered him by his many friends in the trade and his business associates at Keene's Chop House, West Forty-fourth street, New York City. Music was furnished by the Original Memphis Five. Others who responded with songs or piano solos were Billy Jones, Cliff Hess, Johnny Wilson, Eddie Buzzell, Jack Osterman and other Broadway stars. Short addresses were made by many of those who attended wishing Jack Mills the best during his European tour. The various executives of the organization also spoke feelingly of their employer, the organization and its aims.

Jack Mills

Jack Mills seemed greatly touched by the words of his confreres and although his emotions were, undoubtedly, aroused to the highest pitch, he responded with a few well-chosen words.

FAST GAINING IN POPULARITY

"Wolverine Blues," a new number just released by the Melrose Bros. Music Co., of Chicago, is fast becoming a popular favorite on the dance programs of orchestra leaders throughout the entire country. It has been released by a number of the record and player roll companies and dealers handling these particular lines report that it is enjoying a heavy sale.

SAM FOX BACK FROM EUROPE

Head of Sam Fox Publishing Co. Returns From Lengthy Stay Abroad

Sam Fox, head of the Sam Fox Publishing Co., of New York and Cleveland, O., recently

Sam Fox and Herbert Smith in Denmark arrived from England and spent several hours in the New York offices of his company, later hurrying to the Cleveland executive offices after an absence of several months. Mr. Fox not only made a lengthy stay in England but visited all the larger centers of Europe. He was accompanied on his continental trip by Herbert Smith, one of the executives of Keith-Prowse & Co., Ltd., London, England, operators of forty retail stores.

THE "SONG MENAGERIE" APPEARS

Leo Feist, Inc., Uses Novel Way of Listing Popular Numbers

Under the heading "The Song Menagerie," the following appeared as the leading item in the latest issue of Feist News, issued monthly by Leo Feist, Inc., which, now that the circus season is on, is quite timely.

"Exhibit No. 1—'BEE'S KNEES.'—One of the foxiest fox-trots ever written. Played by Ted Lewis in the Greenwich Village Follies, and danced by most everybody everywhere.

"Exhibit No. 2—'SNAKE'S HIPS.'—A Jungle jazz fox-trot and the only one in captivity with just this rhythm. Paradoxically speaking, 'Snake's Hips' is a 'Bear.'

"Exhibit No. 3—'THE DUCK'S QUACK.'—Introducing by way of a Barnyard Jazzboree all the familiar 'animals' down on the farm, old Duck Web-foot, the Goose and Gander, a Turkey Gobbler named Alexander, the Squealin' Pig, the Old Black Crow and all the other live stock you used to know.

"You don't know by the sound whether it's the zoo or a music store these days."

THREE NEW BLUES FOR MILLS

Jack Mills, Inc., has taken over from a Western publisher three new "blue" songs, all of which have had some popularity in the Middle West. They are "Down-Hearted Blues," "Chirpin' Blues" and "I Just Want a Daddy." Besides the piano solos, saxophone, banjo and other folios, together with an active list of popular numbers, the Mills catalog is becoming chiefly noted for being the house of popular "blues"; for which at the present time there appears to be a widespread demand among the music dealers throughout the country, who are actively engaged in pushing Jack Mills' numbers in vigorous publicity and sales promotion campaigns.

International Novelty Orchestra Scores Hit

Unique Aggregation of Record Artists, Directed by Nathaniel Shilkret, Has Recorded Selections of the Music of Over Thirty-three Nationalities for the Victor Co.

One of the most unique dance orchestras making records is the International Novelty Orchestra, an exclusive Victor orchestra, directed by Nathaniel Shilkret. All of the mem-

bers of this organization were picked after years of research. Mr. Shilkret, although only thirty-two years of age, is widely known in the musical world. He commenced his musical education at the age of five, becoming a soloist with an orchestra at the age of seven. When he was fifteen years of age he was offered a position with the Russian Symphony Orchestra and subsequently played with some of the leading orchestras in the country, at the same time studying the theory of music. At the age of twenty-one he was a composer of many compositions, including orchestral suites, instrumental solos and songs. When at the age of twenty-five he became one of the musical directors of the Victor Talking Machine Co. he had almost twenty years of orchestral experience behind him.

With the development of the orchestration of modern dance music, Mr. Shilkret was in a position to hear the best orchestras which were coming to the Victor laboratories to record, and he became keenly interested in their activities. As a result of his aims and ideals in this direction, the International Novelty Orchestra was formed and there is probably no other orchestra in existence that records as many selections as this orchestra. The versatility of the men in the International Novelty Orchestra and their keen musical intelligence is shown by the fact that they record selections for over

thirty-three different nationalities. The International Novelty Orchestra is 95 per cent equipped with Conn instruments. This splendid

How Progressive Methods of the Jones Store Co. Have Built Large Business

Live Kansas City Merchant Uses Every Means of Securing Sales—Publicity of All Kinds and Outside Selling Are Found Sales Producers—Varied Lines Handled Draw Public

KANSAS CITY, Mo., July 7.—Since the Jones Store Co. took over the exclusive agency for the Edison phonograph, business has increased to such an extent that it has become necessary to enlarge the music department of the store. The whole building is to be remodeled and while that is being done the music department is to be moved into what is now the rest room, which will give more space for the phonograph line. There will be twenty hearing booths installed and six large machine demonstration booths. The remodeling is to be finished in September, so that the department will be ready to handle the Fall trade in the new quarters. C. R. Lee, buyer and manager of the department, says that due to the increase in business three new outside salesmen have been added and it will be necessary to increase the sales force again when they move.

Mr. Lee feels that it is because of their selling methods that they have had such a good business all Spring and Summer. One of the devices used to stimulate trade was an employees' day sale, held June 18. On this day all the employees shared in the profits and were permitted to buy talking machines at a discount. The Wednesday before the sale every employee in the store sent out ten postal cards to acquaintances in the city telling of the coming event. The store has about one thousand employees, so that meant 10,000 postal cards. The result was a tremendous sale. Employees themselves bought a great many machines, taking advantage of the discount.

Another method in use by the department to increase sales is the use of the outside salesmen who follow up prospects. When a customer enters the department to make inquiries in regard to some machine, her name and address are taken and if she does not purchase the machine, the city salesman follows up the prospect. That evening he will take a machine in his car to her home if it meets with her convenience and will play the machine for her in the family circle. The follow-up usually results in a sale.

The Jones Store Co. also features the club plan, which is very successful. The club plan is that of paying a certain amount at the time

of the purchase of the machine and so much a month until the machine is paid for. The unusual feature in this plan is that the firm insures the machine against fire and tornado.

The department has a large mailing list of patrons to whom it sends the data concerning new records which are to be released, keeping them informed so that they may know just when the new records are available. Any news of interest in the musical world is also mailed to the customers. The store also has a large mailing list and the department, through correspondence, learns how many of the customers on that list do not have talking machines and immediately lines them up as prospects. This method has brought in splendid results.

The department carries the Edison, the Victrola, the Sonora and several makes of portables. A nice business is being done in the Sonora, the Edison and the Victrola. The portable business is holding up nicely. People going on vacations, Campfire Girls and Girl Scouts are all good prospects. The company lent a portable to the Girl Scouts who are camping at Noel, Mo., this Summer. The machine is for their use during the Summer, but the girls are to furnish their own records.

Knowledge of Radio Necessary in Selling

F. N. Eaton, Manager of Washington Federal Tel. & Tel. Office, Points to Knowledge of Radio as Vital Need of Dealers

F. N. Eaton, resident manager of the Washington office of the Federal Tel. & Tel. Co., has been doing some very interesting and helpful work in getting the music stores started in the radio business. In commenting on his experiences along this line he states:

"When I call on a music dealer I let him see that there is no doubt in my mind but that he is going into the radio business and is going to make money. I find, however, that the majority of dealers say that they are going to wait until Fall, as there is no radio business in the Summer, and therefore that it would be a waste

of money for them to take on a line of radio at this time. I try to tear down this objection by asking them what they know about the radio business, and find that nine out of ten of them know very little or nothing. I then ask them how they are going to sell radio and make money in the Fall of the year, at which time there will be a large amount of radio business, without knowing something about it, and they are stumped. When confronted with this argument quite a few of them decide to take on a sample line and in that way become acquainted and learn something about radio during the Summer months so that in the Fall they will be able to go out and get customers and take care of them when they come into the stores."

Times Appliance Co. Is Winning on Service Basis

The Times Appliance Co., distributor of R. C. A., Crosley and other well-known sets, and a wide line of accessories and parts, has built up a large business and organization largely upon the quality of the service which it has rendered its dealers. This enterprising radio distributing house has given particular attention to the talking machine field and numbers among its accounts some of the largest and best-known talking machine dealers in the metropolitan territory. Realizing the importance of proper service to the dealer in radio, this company has inaugurated a new branch of service along somewhat different lines. A recent announcement from the headquarters of the company at 33 West Sixtieth street is to the effect that dealers desiring radio products not already on the large list distributed by the Times Appliance Co. may place their orders with this branch of the service department and the products desired will be obtained for them through other sources. The Times Appliance Co. maintains an adequate stock of all lines which it regularly distributes and the location of the company in New York City, the heart of radio distribution, will enable it to secure any special items desired with practically no loss of time.

New Nyacco Album Catalog

The New York Album & Card Co., Inc., New York and Chicago, has just issued a new catalog to the trade. This attractive piece of literature, sixteen pages in size, and with an attractive cover, thoroughly describes and illustrates the Nyacco line. It is bound with a silk cord and loop which allows it to be hung conveniently at the side of the desk or any other convenient place.

Following the introduction, the various numbers constituting the Nyacco line of talking machine record albums are described, including the special sets for talking machine cabinet equipment. Stock envelopes, delivery bags and extra leaves for the record album are also cataloged. In addition to the talking machine products, the Nyacco line of photograph and autograph albums is also given. This new catalog will undoubtedly prove of much value and assistance to the purchaser of albums.

Music Dept. Changes Hands

DAVENPORT, IA., July 2.—The W. J. Murray Co., which has conducted the talking machine department at the Harned & Von Maur store for several years, recently sold the department to C. B. Beiderbecke. The new owner intends to expand the department by adding band instruments. W. J. Murray will be connected with his brother, L. A. Murray, at the latter's talking machine store at 305 Brady street.

The stock and fixtures of the L. M. Pike Co., Victor dealer, North Main street, Norwalk, Conn., were sold recently to Miss Hamilton, Mr. Collins and Mr. Donnelly, all local Victor dealers.

Pathe Corp. Announces New Recording Process

Eugene A. Widmann, President of Pathé Phonograph & Radio Corp., Describes New and Improved Process of Making Records

Eugene A. Widmann, president of the Pathé Phonograph & Radio Corp., Brooklyn, N. Y., has announced a new recording process for both

President Widmann With Cylinder Record Pathé and Perfect records. This process, it is stated, is along entirely new lines and is the result of over a year's experimentation in the Pathé Laboratories in Brooklyn, and for some three years by noted acousticians in the Pathé Frères laboratories in Paris, France. The new process used is described as resulting from work in electrical and photo-electrical sound wave reproducing methods conducted by both the domestic and foreign organizations.

In discussing the new process for The World, President Widmann stated: "We finally devel-

oped the process to a point where we decided definitely to adopt it. The next records released will be made using the new recording process. The process has been one of gradual development and is different from that employed by any one else. I believe our records will be superior to any records that have appeared on the market heretofore. The new process makes it possible to record effects that have in the past been lost. The tone is truer and sweeter and is not purely a matter of

The New Disc Records

greater volume increased to a point where it becomes impractical for use in the home.

"We have had under our observation and have experimented on this type of recording for over a period of two years. It is a well known fact that results obtained in reproduction on the outside lines of the record have been better than those in the center, and it is for that reason that the small records put on the market years ago were not successful—because too congested. It was recognized that if it were possible to have the original master

stretched and method found by which these stretched lines could be condensed and transformed by a slow process a better and truer record would result. The Compagnie Generale des Machines Parlantes Pathé Frères, Paris, had developed this process. Our plan in recording is to use a huge cylinder wax record and after we have recorded a four-minute record we transfer this to a flat record. A sapphire is used in cutting the cylinder and this is transposed to a lateral cut on the disc. It takes us an hour now to get into the original flat wax which formerly took three minutes. It is a well-known fact that in photography the original objects are made large in order to get the detail and then are reduced down to the desired size.

"The sixteen-inch record gives better results than the ten-inch records, and the ten-inch better than the three-inch, etc. By our method you get the result on a ten-inch record that might ordinarily be expected from one two or three times as large and with uniform results."

President Widmann is shown in the accompanying photographs presenting specimens of cylinder and disc recordings in which the new process has been used.

"Domin-Aire" Radio Announced by MacLaren Co.

New Model Operates Directly From AC or DC Electric Current—Dealer Protection Is Feature of Company's Distribution Plan

The MacLaren Mfg. Co. 26-28 Park place, New York City, has just announced a new radio receiver, known as the "Domin-Aire,"

"Domin-Aire" Radio

which operates directly from AC or DC electric current without batteries or eliminators. The product is sold completely equipped with selected tube tested for perfect reception. The product will receive short wave length down to 150 meters and will tune out high powered stations. It is self-encased, including loud speaker in an attractive cabinet that lends itself to home atmosphere.

The manufacturers have been developing the "Domin-Aire" for the past two seasons, having placed hundreds of them in homes during the experimental period for the purpose of locating any weaknesses and bringing the product up to perfection.

The merchandising plan upon which the "Domin-Aire" is distributed is one calling for the highest business standards upon lines that will particularly appeal to the talking machine dealer. "Domin-Aire" will be sold only by authorized dealers, with several protective clauses in the contract that should meet with widespread approval. There will be a system of registered ownership which protects customers after the sale is made and builds goodwill for the store. "Domin-Aire" engineers and technicians will follow the completed sale and assure satisfaction to owners.

The product manufactured by the MacLaren Mfg. Co. is marketed through Thornell-MacLaren Associates, exclusive factory representatives, 26-28 Park place, New York City.

A Year Ahead—Yet Sells Complete for Less than \$100

The new Erla Circloid Five is the most advanced example of modern radio engineering. Write at once for complete information and the remarkable Erla dealer franchise.

Today we offer radio dealers the greatest radio proposition in America. It carries with it advantages found in no other franchise.

A New Type Receiver

The new Erla Circloid Five is a year in advance of its time. It offers 4 vital improvements. (1) Greater distance. (2) Finer Tone. (3) Greater Volume and (4) Sharper Selectivity. In appearance it surpasses receivers selling for \$50 to \$100 more.

Immense Sales Possibilities

Think of the sales volume possible to the dealer who can sell this latest and most up-to-date receiver complete for approximately \$100. What other set can offer competition? Erla can do this because 95% of

its parts, including cabinets, are manufactured entirely within its own plants at only one profit. This gives dealers an adequate profit plus a far greater volume.

Gigantic Sales Plan

The Erla franchise includes protection from price-cutting and other destructive practices. Erla representatives are backed by a gigantic advertising campaign reaching over 25,000,000 people. Thousands of names will be turned over to dealers in all parts of the country. The dealers who have seen it say that it is the greatest selling idea they have ever known. Write or wire today for complete information. You will receive details by return mail. This is the biggest, most profitable offer ever made to radio dealers. Act at once.

Excellent Holiday Business Creates Optimism in Retail Circles—Dealers Suffer From Shortage of Certain Instruments

ST. LOUIS, Mo., January 8.—The measure of the Christmas talking machine business in St. Louis was the measure of getting the goods. Particularly the new Victors and the Brunswick Panatropes. The dealers sold all that they could get. When they had no more to sell they took orders, delivering other machines for temporary use, pending arrival of the ones ordered.

The radio business was strong throughout the year, growing in volume from month to month except during the Summer slow-down, and for Christmas was very large.

It was such a big year for the Artophone Corp. that as it drew to a close the officers of the firm found it necessary to look around for more room in which to further expand. It had already expanded as much as it could in the building of the Thiebes Music Co. at 1103 Olive street. It was necessary to go elsewhere with its wholesale department. A five-story building on Pine street west of Twelfth street has been chosen and as this is written negotiations have about been completed for a lease.

The Artophone Corp. is increasing its lines of small goods. Herbert Schiele and Ray Layer, vice-presidents of the firm, spent the last week of the month in Chicago making purchases. The department has only been in operation for six months but has been a pronounced success from the first. John Werle, who has not heretofore been in the music business, has been engaged by the Artophone Corp. for the city trade. Herbert Schiele and Ray Layer, who have been looking after this trade, will hereafter devote themselves more to executive work.

The piano department of the Famous-Barr Co. has been definitely discontinued and the entire space formerly occupied by the pianos and talking machines is now occupied by talking machines. Manager H. E. Pelta says the Christmas business was excellent in spite of the scarcity of the new Victors and Brunswicks.

A large business was done at the St. Louis and Kansas City offices of the Columbia Phonograph Co., in December, according to P. S. Kantner, manager.

Although the Columbia Co. has announced to the dealer the fact that there will be a new Columbia phonograph on the market that will be competitive in all respects to other new phonographs that are now appearing, at the same time, according to Mr. Kantner, the Columbia Co. is not going to make a mistake of advertising and announcing the sale of the new Columbia until the merchandise is actually on hand at the various branches.

When the new Columbia is ready for the market we are advised that it will be competitive in every respect and will be something that both the Columbia dealer and the public will be glad to see. The entire stock of the present line of Columbia phonographs has been satisfactorily disposed of at Kansas City and St. Louis and the dealers' stocks are in very good shape.

Mr. Kantner reports that practically all dealers over the territory have had a very favorable Christmas business in spite of the gen-

eral upheaval of phonograph prices over the territory.

The report on Columbia records throughout the entire territory is one that gives everybody in the Columbia organization a great deal of satisfaction. Sales are simply increasing by leaps and bounds and it is difficult for the different branches to maintain sufficient organization to get the records out to the dealer on time. In other words, business is simply growing faster than the organization, but everyone is busy day and night and gradually catching up so that the service on Columbia records now is as near to 100 per cent as it is possible to get. The Columbia offices are receiving a great many compliments on the service they are giving, particularly on late numbers, and the comments over the territory in general are that Columbia is again assuming first place in getting hits to the dealers on time.

The Harmony record demand at St. Louis and Kansas City is growing very rapidly. Dealers all over the territory are beginning to realize the advantage of meeting the cheaper competition with a superior record at a price that is very acceptable to the public. Practically all Columbia dealers who are now featuring Harmony records are reporting not only increased profits from them but also increased sales on regular Columbia records.

Geo. C. Jell, from the general sales department at the executive office in New York of the Columbia Co., spent a few days in St. Louis calling on the trade, in promoting the Master Works series records of the Columbia catalog. This new Master Works catalog is being received with a great deal of appreciation on the part of the better dealers.

Every one of the Columbia offices as well as the Columbia dealers are looking forward to a very big year in 1926. A general sales meeting was held at the St. Louis office on December 26, for the purpose of formulating plans for the early part of 1926, details of which appear on another page of this issue.

Irving Kaufman Recording for Banner and Domino

The Plaza Music Co., manufacturer of Banner and Domino records, announces that Irving Kaufman, well-known record artist, will in the future contribute monthly releases to these catalogs. Both the Domino and Banner catalogs are featuring many solo selections in addition to its monthly releases of dance numbers. The acquisition of Irving Kaufman to its contributing artists has met with widespread approval of Banner and Domino dealers as is demonstrated by the sales on his first releases, "Sleepy Time Gal" coupled with "I Wish That I'd Been Satisfied With Mary," and record of "Too Many Parties, Too Many Pals."

Pay Tribute to Magnavox Following Lab. Tests

Newark, N. J., Newspaper Outlines the Result of Tests in Bloomfield Laboratory and Lauds Quality of Magnavox Receiver

OAKLAND, CAL., April 3.—The Magnavox Co., of this city, manufacturer of Magnavox receiving sets, received recently interesting details from Newark, N. J., regarding a test conducted at a radio laboratory in that city. The Newark Call, one of the leading newspapers in Newark, in reporting on this test stated as follows:

"A great deal has been said about single dial receiving sets, but the Magnavox Co. has produced a one-dial set that does all its makers claim for it. This type of receiver was first operated at the radio department laboratory in Bloomfield, where most of the radio tests are conducted. The set was hooked up to a fifty-foot six-inch cage aerial and was operated in connection with the usual ninety volts of B battery and six-volt storage and five 201-A tubes.

"At this location the receiver was found to be extremely selective, cutting in and out all local stations without any difficulty. In fact, distant reception was possible on this receiver from 4 o'clock in the afternoon until midnight. For DX reception this type of receiver is exceptional.

"It tunes with a single dial located in the center of a small panel. A volume control is used to bring the set up to its most sensitive condition. The tuning dial is arranged with wave length calibrations, as well as degrees. This simplifies tuning. The set was operated by several novices who had never tuned a receiver before, and they were able to bring in many stations throughout the country.

"The receiver worked best with a Magnavox horn type speaker, reproducing with good quality on all stations within its range. Not less than 125 stations were logged on the set within a period of two months. The outfit was taken to the Roseville section of Newark, where it was connected to an aerial seventy-five feet long, single wire. The set performed about the same as at Bloomfield, except that some interference was noticed with WGCP and WBPL. However, with careful adjustment these stations were tuned out and stations near their wave lengths were brought in clearly. As for ease of operation, sensitiveness, selectivity and good tone quality, the Magnavox receiver is hard to beat. It has met with approval."

F. E. Yahr Visiting Trade

Fred E. Yahr, president of Yahr-Lange, Inc., Sonora distributor, of Milwaukee, Wis., left on Sunday, March 28, for an extended trip throughout the West. Mr. Yahr visited St. Louis, Kansas City, Denver and other important trade centers in the interest of the Super-Ball Antenna, for which his firm is national distributor. He planned to return to his desk on April 15.

Jack Kapp Heads Race Record Brunswick Division

Prominent Record Sales Executive Takes Charge of New Department, Which Is Full of Promise—Important Announcements Soon

The announcement of the creation of a race record division by the Brunswick-Balke-Collender Co. early in March was met with enthusiasm throughout the country by dealers and salespeople engaged in the selling of Brunswick records. The new department will be headed by Jack Kapp, one of the best-known and popular record sales executives in the industry, who will devote to the sale of the new recordings the results of his experience in securing talent and record sales promotion exclusively.

Mr. Kapp needs no introduction to the talking machine trade, as he has a host of friends and acquaintances in the industry, gathered in his eleven years' connection with the Columbia

Phonograph Co. Starting while still in his teens, he became associated with the Chicago branch office of the Columbia Co. and rose to the head of its record sales department. While acting in this capacity, his activities covered a considerable portion of the Middle West, working closely with Columbia dealers in the matter of record sales and maintaining touch with recording talent. He assumed his duties with the Brunswick-Balke-Collender Co., on March 10, and within the next few weeks important announcements are expected regarding the new race record department.

WorkRite Mfg. Co. Announces Plans for Season

V. H. Meyer, President of Company, Predicts Early Buying and Busy Days Ahead—Number of Radio Models Reduced to Three

CLEVELAND, O., July 6.—The WorkRite Mfg. Co., of this city, manufacturer of neotrodyne receivers and well known throughout the in-

Tuning in on WorkRite Model 36

dustry, has just announced its plans for the coming season. V. H. Meyer, president of the company, stated recently that his organization believes that there will be early buying on the part of the jobbers and dealers this year, with an excellent business for all standard recognized manufacturers. The WorkRite Mfg. Co. has been identified with various successful manufacturing activities for seventeen years, and for the past five years has been manufacturing radio products. In announcing the company's plans Mr. Meyer stated that the line of WorkRite models had been reduced to three with a price range of \$80 to \$210. The adoption of a six-tube circuit for all models and the reduction of models in the line have simplified the company's production problems materially.

The WorkRite Model 16 is a table receiver with two controls and no verniers being necessary. The cabinet is of walnut with panel and dial to match, gold trimmed. Special design, straight-line broadcast condensers are used in this and other WorkRite models. The Model 16 lists at \$80. The WorkRite Model 26 has the same chassis as Model 16, but is mounted in a small floor console with high-grade speaker enclosed. This set retails at \$145.

The WorkRite Model 36, shown in the accompanying illustration, is a handsome console model with a walnut cabinet having a special built-in cone speaker with a diaphragm twenty-five inches wide. Space is provided for all batteries or power units and the three-way switch "off, soft and loud" gives excellent tone control. The operating panel is very simple, the

new two-in-one control operating all three condensers from one dial. This model, which retails at \$210, has been wired by the WorkRite engineers to make it possible to use efficiently the various types of new power units.

Famous Boy Scouts Band Makes Brunswick Records

SPRINGFIELD, Mo., July 3.—Thanks to the interest of Lester E. Cox, secretary and manager of the Martin Bros. Piano Co., this city, arrangements have been concluded whereby the Springfield Boy Scouts' Band has made six recordings for the Brunswick-Balke-Collender Co. Six marches which the band played will appear on three double-faced records. It is understood that the royalties from these records will be divided between the National Boy Scouts' organization and the Springfield Boy Scouts' Concert Band. The C. G. Conn Band Instrument Co. is going to use this organization as one of the features of a motion picture production, which will be fathered by that company at an early date, showing how music is making true Americans of the boys of the United States.

To Sue Infringers of Patent Controlled by Mohawk Corp.

The Mohawk Corp. of Illinois, with headquarters in Chicago, recently received an important patent grant on its gang condenser, relating to the assembly of a condenser, under date of February 16, U. S. Patent No. 1,573,374. The application was filed July 2, 1924, and Paul A. Chamberlain, chief engineer for the Mohawk organization, who joined the firm two years ago, was the original inventor. The patent is said to be of extreme importance and the Mohawk Corp. intends to sue several concerns who are said to be infringing. Since the patent covers several features in the building of a radio receiver the Mohawk officials have employed special attorneys to prosecute infringers.

Advertise Portables in Resort and Travel Guide

INDIANAPOLIS, IND., July 2.—The Indianapolis Star recently issued its annual Vacation and Travel Guide, which is devoted entirely to editorial and advertising the resort and play spots in the State. Aside from the resort advertisements, stores which supply the necessities for camp and vacation used this resort guide as an advertising medium. Prominent among the advertisers were the Pearson Piano Co., the Peoples Outfitting Co. and the Fuller-Ryde Music Co., who advertised portable talking machines, ukuleles and similar articles of musical merchandise.

Ted Lewis Featured at Strand

Ted Lewis and His Jazzical Clowns, exclusive Columbia recording orchestra, recently were featured at the Strand Theatre, New York, where they received an ovation from capacity audiences for their renditions of the latest in dance music. During the program Mr. Lewis apprised the audience of the fact that several of the numbers had been recorded for the Columbia catalog.

Charles Edison Elected President and Chief Executive of T. A. Edison, Inc.

Succeeds His Father in Those Important Positions, the Latter Becoming Chairman of the Board—Move Will Afford Great Inventor More Time for Carrying on Experimental Work

Formal announcement was made last week of the election of Charles Edison, son of Thos. A. Edison, as president and chief executive of Thomas A. Edison, Inc., thus taking over the supervision of all the Edison activities in Orange and succeeding his father in that important post. Thomas A. Edison becomes presi-

Charles Edison

dent of the Board of Directors of the company, and welcomes the new move as affording him a greater opportunity for conducting important experimental and development work, particularly in the phonograph field.

Charles Edison's steady rise to the position of official head of the Edison interests has

been won by his own sheer ability and hard work. It was largely on his own initiative that he accepted various responsibilities and took up new duties as the need became evident. Upon entering the business immediately following his graduation from college Mr. Edison was put strictly "on his own" by his father, who saw to it religiously that he learned to paddle his own canoe without paternal aid.

During the past few years Charles Edison has held a number of executive positions, most recently that of Chairman of the Board, and has had a direct and important part in the development of the Edison business and particularly in the promoting of new improvements in the phonographs and records. As president, of course, his progressive influence will be still more strongly felt.

Early in September, in company with Arthur T. Walsh, vice-president and general manager of the phonograph division of the Edison interests, Charles Edison will make an extended tour of the entire United States visiting all the jobbing centers and meeting with and addressing groups of Edison phonograph dealers. These two executives will have a message for the dealers that is regarded as more important than any that has emanated from the Edison factory since the advent of the disc phonograph. This message will be delivered to the trade and to the general public at an early date through an extended campaign of national magazine and newspaper advertising, announcement of which has already been made in the columns of *The World*.

Evidence of these forthcoming important moves is observed at the Edison factories in Orange, where unusual activity prevails in the phonograph division.

H. Don. Leopold Joins Forces of the Carryola Co.

Will Be in Charge of Advertising and Sales Promotion and Will Co-operate in Sales Organization—Widely Known in the Trade

MILWAUKEE, WIS., August 7.—Don T. Allen, vice-president and general manager of the Carryola Co. of America, manufacturer of Carryola portables, announced this week that H. Donaldson Leopold, formerly advertising manager of the Brunswick-Balke-Collender Co., Chicago, had joined the Carryola organization in an executive capacity. Mr. Leopold will be in charge of advertising and sales promotion and will also co-operate with the sales organization.

The appointment of Mr. Leopold as a Carryola executive will be welcome news to Carryola jobbers and dealers throughout the country, as Mr. Leopold is ideally qualified for his new activities. His first association with the talking machine industry was in the capacity of West Coast territorial representative for the Victor Talking Machine Co., where he remained for two and one-half years, resigning from the Victor Talking Machine Co. where he remained self. In 1922 Mr. Leopold became associated with the Brunswick-Balke-Collender Co., as New York City salesman, being promoted to the post of assistant Eastern sales manager and later manager of the dealer service department at the Chicago executive offices, a department

which he created. Mr. Leopold's success in this important work was recognized by his appointment as sales promotion manager, another de-

H. Donaldson Leopold

partment which he created, and later he was appointed advertising manager of the company, in complete charge of all Brunswick advertising.

Mr. Leopold numbers among his acquaintances about 3,000 music dealers located from one end of the country to the other, and his intimate familiarity with the retailers' problems

Lyon & Healy to Handle the Columbia Viva-tonal Line

Its Four Stores in Chicago Will Handle Full Line of Viva-tonal Phonographs and Records

CHICAGO, ILL., August 9.—News of extreme interest to the music trade came from the office of A. J. Heath, manager of the Chicago branch of the Columbia Phonograph Co., early in August, when he announced that an arrangement had been made with Lyon & Healy, Chicago, to handle in its four retail stores the full line of Columbia Viva-tonal phonographs and records. Lyon & Healy, one of the oldest music houses in Chicago, is one of the largest and most prominent in the entire world, and in addition to its five-story building at Wabash and Jackson avenues in Chicago's downtown business district, the firm maintains branch stores on the north, west and south sides. The full Columbia line of phonographs and records will be handled at each store.

Early in the history of the phonograph industry, Lyon & Healy handled Columbia products, and Mr. Heath, in making the announcement, stated that he was elated because the choice of Lyon & Healy gives every evidence of the growing popularity of Columbia phonographs and records and the popular endorsement which they are receiving.

Walter Roche, a director of the firm and manager of the retail division of Lyon & Healy, stated that the executives of his firm had carefully examined and tested Columbia Viva-tonal instruments and records, as well as the policy of the Columbia Co., before reaching a final decision. Mr. Roche, in an interview with *The World* reporter, stated that careful consideration had been given to every angle of the subject and that the Columbia line had been chosen solely on its merit. He further commented on the fact that Lyon & Healy would now handle a complete line of reproducing instruments, with a machine for practically every purse and individual taste. The new instruments are already on Lyon & Healy's display floor and the firm is one of the first to introduce the Viva-tonal line in Chicago.

will undoubtedly be an important factor in his Carryola activities. He brings to his new post a thorough knowledge of every phase of merchandising as applied to the phonograph industry, and he is now making plans whereby he can offer Carryola dealers and jobbers practical and efficient service and co-operation.

The success attained by the Carryola Co. of America, as a manufacturer of Carryola portable phonographs, has been one of the outstanding features of the phonograph industry, and a considerable portion of this success may be attributed to the executive and merchandising ability of Don T. Allen. Under his direction the company has established nation-wide distribution for Carryola products, and the sales volume is increasing month by month to figures which in former years were unheard of in the production of portable phonographs.

Donaldson Has Columbia Line

MINNEAPOLIS, MINN., August 6.—L. S. Donaldson, the well-known department store here, is putting in the complete line of the Columbia Phonograph Co., including Columbia new process records and the new Viva-tonal Columbia phonographs. L. S. Donaldson is representative of the splendid type of outlets that Columbia is selecting for distribution of its products.

Columbia Co. Buys Okeh-Odeon Record Division of General Phonograph Corp.

Okeh-Odeon Sold as Going Concern—Okeh Phonograph Corp. Formed With Otto Heineman as President—New Corporation Will Also Be Sole Agents for Products of General Industries Corp.—Important Deal Is of Tremendous Advantage to All Concerned

Louis S. Sterling, chairman of the Board of Directors of the Columbia Phonograph Co., Inc., and Otto Heineman, president and founder of the General Phonograph Corp., announced this week the details of one of the most important deals closed in the phonograph industry in recent years. By the terms of this deal the Okeh-Odeon record division of the General Phonograph Corp. is sold as a going concern to the Columbia Phonograph Co., Inc. The latter company takes over factories, stock, good will, etc., and the formation of a new corporation known as the Okeh Phonograph Corp., is part of the transaction.

Otto Heineman will be president and general manager, and Allan Fritzsche, vice-president

and sales manager of the new corporation, which will be amply financed and which will concentrate on the extensive development of the Okeh and Odeon libraries. There will be announced in the near future full details of the plans, whereby it is expected that the sale of Okeh and Odeon records will be increased tremendously as the result of the formation of the new company.

The Okeh Phonograph Corp. will also be the sole sales agent for the phonograph products manufactured by the General Industries Corp. at Elyria, O., which include the famous Heineman motors, tone arms and sound boxes and various popular makes of steel needles, such as Okeh, Truetone, etc. The Okeh Phonograph Corp.

will also function as the sole representative for Odeon records in America, bearing the same relationship to the Lindstrom Co. as the General Phonograph Corp. did in the past.

The General Industries Corp. will continue as heretofore with factories at Elyria, O., and Putnam, Conn., and under the same management as at the present time.

When all details are arranged the General Phonograph Corp. will be the holding company for the General Industries Corp., holding all common and preferred stock of this company, and the factories at Elyria, O., and Putnam, Conn., will be the only manufacturing units in the organization.

The importance and magnitude of this deal is reflected in the many congratulatory telegrams received at the Columbia and General Phonograph Corp. offices the past few days from jobbers and dealers throughout the country. The deal is regarded as of tremendous advantage to all concerned, for it means the expansion and development of two well-known and standard record libraries as well as the amalgamation of phonograph interests which are recognized throughout the world as among the leaders in the constructive growth of the industry.

A meeting of the stockholders of the General Phonograph Corp. will be held on October 22, at which the Board of Directors will present the full details of the deal, all of which have met with their entire approval.

Business Booming

"The prospects for Buescher business have never been so bright as at the present time and we anticipate a wonderful Fall and Winter trade. At this time there is not an important orchestra in our territory but what is 90% or more Buescher and the wonderful improvements you are making in the line are creating more interest than ever before."

An excerpt from a letter just received. It is typical of reports coming in from Buescher dealers in all sections of the country.

Music is the highest call of human emotion. When people buy instruments with which to make it, they want the highest grade. The demand is for Bueschers. And Business is always booming for the dealer who has what customers are demanding.

It may be that your territory is still in reserve; open for you if you are the right man to take it on a permanent paying basis. It will pay you to write for the Buescher Dealer Proposition.

Mr. Segal has announced that the two organizations will be consolidated, and within the next few months the Add-A-Tone plant, now located at 32 Union Square, New York, will be moved to the Silent Motor plant at 321 Dean street, Brooklyn.

The Silent Motor, well known throughout the industry, is used exclusively by the Carryola Co. of America in the portable field. Mr. Segal states that he recently signed an order for 50,000 motors, which will take care of the Carryola Co.'s requirements for the balance of 1926. The Add-A-Tone reproducer is also used exclusively in the Carryola portable.

Jack Roop Joins Staff of Leedy Manufacturing Co.

Will Act in Capacity of Assistant Sales Manager—Now Traveling Central States and Featuring the Line at "Drum Shows"

INDIANAPOLIS, IND., October 8.—Jack Roop has been appointed assistant sales manager of the Leedy Mfg. Co., of this city, makers of a complete line of drummers' instruments, and will represent the firm on the road, according to an announcement emanating from the Leedy headquarters. Mr. Roop, who is at present traveling the Central States, carrying three large trunks of samples and putting on "Drum Shows" in the interest of his company and the various music dealers, has many friends in the trade throughout the country. He has been calling on the trade during the last five years in the interest of the Leedy line. Mr. Roop is an experienced drummer and he has held many positions in leading Middle West cities in his professional capacity.

Otto Heineman, President and General Manager of the Okeh Phonograph Corp.

New Corporation Starts Business With Headquarters in New York City—Company Is Sales Agent for Products Made by General Industries Co., Elyria, O.

On Monday, November 1, the Okeh Phonograph Corp. started business with headquarters at 25 West Forty-fifth street, New York. This company, which is owned and controlled by the Columbia Phonograph Co., Inc., took over the Okeh-Odeon record division of the General Phonograph Corp. and the latter company will discontinue the record business. The Okeh Phonograph Corp. is also acting as the sole sales agent for the phonograph products manu-

factured by the General Industries Co., at Elyria, O., which include the famous Heineman motors, tone arms and sound boxes and various popular makes of steel needles, such as Okeh, Truetone, etc. The Okeh Phonograph Corp. is also functioning as the sole representative for Odeon records in America, bearing the same relationship to the Lindstrom Co. of Germany as the General Phonograph Corp. did in the past.

Otto Heineman, President of Okeh Phonograph Corp., at His Desk

factured by the General Industries Co., at Elyria, O., which include the famous Heineman motors, tone arms and sound boxes and various popular makes of steel needles, such as Okeh, Truetone, etc. The Okeh Phonograph Corp. is also functioning as the sole representative for Odeon records in America, bearing the same relationship to the Lindstrom Co. of Germany as the General Phonograph Corp. did in the past.

The stockholders of the General Phonograph Co. held a meeting on October 22, at which the purchase of the Okeh-Odeon record division of the General Phonograph Corp. by the Columbia Phonograph Co. was ratified and endorsed in the highest terms of approval. Otto Heineman, one of the leaders of the phonograph industry, is president and general manager of the Okeh Phonograph Corp. Allan Fritzsche is vice-president and David Goldman treasurer. Both of the latter executives are well known to phonograph jobbers and dealers throughout the country, for they have been identified with the General Phonograph Corp. for many years and have worked in close co-operation with Mr. Heineman and his many activities.

The Okeh Phonograph Corp. will concentrate its activities on the development of Okeh-Odeon record business and the success of these products is reflected in the fact that the jobber organization comprises some of the leading wholesalers from coast to coast. These jobbers have given exceptional co-operation and loyal representation to Okeh-Odeon records and the new corporation is formulating liberal merchandising plans which will represent a tangible and definite recognition of the support

accorded to the Okeh-Odeon record library by its jobbers.

Otto Heineman, president of the Okeh Phonograph Corp., needs no introduction to the phonograph industry in any part of the world, for he has been associated with phonograph developments for nearly twenty-five years and has won the esteem and friendship of every factor of the industry both here and abroad. An exceptionally capable executive, with an

unsurpassed knowledge of manufacturing and merchandising as applied to every phase of the talking machine trade, he is recognized everywhere as a constructive force in the growth and expansion of the industry itself.

One of the factors that have contributed materially to Mr. Heineman's success is his recognition of the importance of the dealer in the successful merchandising of any product. As president and general manager of the General Phonograph Corp. he has worked in close co-operation with dealer activities for many years, visualizing their problems and assisting the retailers wherever possible in solving these problems profitably and advantageously. As president of the Okeh Phonograph Corp. Mr. Heineman will continue this same policy of dealer co-operation, and in fact the plans now being developed by this company provide for an even greater degree of dealer service than has existed in the past. This co-ordination of jobber and dealer plans is being worked out under Mr. Heineman's personal direction and will be announced soon.

Odeon records, which are famous the world over, are now being recorded entirely by a highly efficient method of electrical recording and it is planned to have the Okeh library recorded similarly. The Odeon repertoire comprises recordings by world-famous orchestras and musical organizations, and the new method of electrical recording now utilized in the making of these records bring out faithfully the remarkable beauty of the selections. Okeh-Odeon jobbers are keenly enthusiastic regarding the current releases of these records and have promised their heartiest co-operation and support to the plans of the Okeh Phonograph Corp.

Tampa Co. Gets Crosley

TAMPA, FLA., November 5.—The Tampa Hardware Co., of this city, has been appointed a distributor for the Crosley Radio Corp., of Cincinnati, O., manufacturer of Crosley radio receivers and Crosley speakers.

Annual Radio Exposition Held in Brooklyn, N. Y.

Manufacturers, Jobbers and Dealers Join in Presenting Latest Radio Products to Crowds of Visitors—Dealers in the Majority

The annual radio exposition in Brooklyn, N. Y., was held at the 106th Regiment Armory, Bedford and Atlantic avenues, during the week of October 30 to November 6, and attracted many thousands of radio enthusiasts and prospective radio purchasers. The exposition in Brooklyn differs from that held earlier in New York in that a great majority of the exhibitors are dealers who show the lines which they carry, and aside from the displaying of the products the sales staffs of these dealers grasp the opportunity of selling the people who visit the booths. The exposition was opened by Borough President James J. Byrne, and his talk was broadcast from a specially erected studio in the center of the armory. This studio was erected by stations WAHG and WBOQ and nationally known radio artists appeared during the week, so that visitors to the exposition had an opportunity of seeing in person the entertainers who have added so much to their home pleasures during the past few years.

Among the manufacturers and distributors who exhibited were: Marko Storage Battery Co.; 20th Century Radio Corp., showing the Garod line with the power set featured, the Magnavox line of sets and speakers and the Mayolian "B" supply units; the Weber-Rance Corp., showing among others the following lines: American Bosch Magneto, the Crosley and the Ferguson; American Wireless Corp., distributor for the Reichmann Co., showing the Thorola line of sets and speakers; Borough Hall Radio Co., distributor for Burns speakers; G. J. Seedman Automotive & Radio Co., distributor for the following lines: R C A, Grebe, Amplion speakers and Balkite products; the C. E. Mfg. Co., makers of CeCo tubes, and Sanford M. Bookee, Erla products.

A. M. Farrier Resigns as Edison Vice-president

Gives Up Post as General Manager of Edison Phonograph Distributing Co., to Enter Building Line—A. L. Walsh Takes Over Activities

A. M. Farrier, vice-president and general manager of the Edison Phonograph Distributing Co., which organization controls the distribution of Edison phonographs and records in many sections of the country, has resigned that post and, according to present plans, will enter the building field.

Arthur L. Walsh, vice-president and general manager of the phonograph division of Thos. A. Edison, Inc., will take over Mr. Farrier's duties in addition to his own, and in future will be in charge of both production and distribution of the Edison phonograph products.

Columbia Staff to Be Entertained at Luncheon

An entertainment and luncheon is to be given in the Green Room of the Hotel McAlpin on November 20 by the Columbia Phonograph Co. to its staff. The committee in charge of the affair has made all arrangements for what promises to be a gala time. Prominent artists will entertain and there will be dancing.

First Issue of Brunswick Topics Wins Trade's Praise

Organ Devoted to Products of Brunswick Co.—Makes First Appearance—Prepared by Newly Formed Dept. of which H. E. Yorke Is Mgr.

The first issue of the new Brunswick Topics was recently sent to the trade and its attractive appearance and the wealth of information contained in its pages drew forth enthusiastic comment and high praise from all sections of the country. This house organ of the Brunswick Co., which is prepared by the recently formed publicity department, of which H. Emerson York is the director, contains in addition to listings of latest records and descriptions of new instruments the latest of topical news, especially that in which the Brunswick products feature. For instance, the first page of the first issue is devoted to a photograph of Gene Tunney and a tribute to the new heavyweight champion, together with a photograph of Jack Demp-

sey, the defeated champion, dancing with his wife, Estelle Taylor, to the strains of music provided by the Panatrope. Other news events pictured and described include the Panatrope taking the place of the striking dance musicians in the ballrooms of Chicago and Florenz Ziegfeld's comment on the utility of the Panatrope, being used in his latest musical production. Many pictures of Brunswick recording artists adorn the pages of the Brunswick Topics.

Four departments that are to be permanent features of the publication and are certain to prove popular because of their usefulness are "On the Air," a column devoted to the activities of Brunswick artists in radio broadcasting stations; "Light Rays from Our Recording Laboratories," devoted to personal chat and news of the artists; "The Letter Box," in which is given information pertaining to Brunswick products and to Brunswick artists, and "With the Music Makers of Melody Lane," in which are given sketches of the composers who are responsible for the popular songs of the day. All in all, the first issue of Brunswick Topics is a most successful one and its contents and their presentation make the periodical one most welcome to dealers and their customers.

Device Converts Radio Set Into Short Wave Receiver

Crosley Radio Corp. Has Exclusive License to Manufacture New Device Which Will Operate With Any Type of Receiver

CINCINNATI, O., November 6.—A new device which converts any radio set into a short-wave receiver has been invented by W. M. Bruce, Jr., consulting engineer, and will be manufactured by the Crosley Radio Corp. The new unit is simply attached to the antenna post of the radio set. It does not interfere with the reception of ordinary broadcasting wave lengths, a switch being provided for changing over from short to long waves or vice-versa.

Although the new unit is quite simple, its operation is based upon entirely new principles, covered by patent applications under which the Crosley Radio Corp. is exclusively licensed. In appearance the device resembles an ordinary radio set, except that it is but one-third the size of the average five-tube set.

The device will operate with any type of set—even a crystal set. It is intended primarily for use with the usual type of radio receiver having four, five or more tubes, however.

Edward T. King Returns to Columbia Phonograph Co.

Edward T. King, who recently announced his resignation as manager of the New York recording studios of the Victor Talking Machine Co., after a connection of twenty-one years, will join the recording department of the Columbia Phonograph Co., Inc., with which he was associated many years ago.

Mr. King has specialized in the production of dance and popular song records and his duties have brought him into intimate contact with orchestras and performers from Coast to Coast. He is highly regarded by the dance orchestras with whom he has worked and many of them attribute a large portion of their recording success to his efforts.

The Columbia Co. feels that Mr. King will be a valuable addition to the personnel of its recording studios' staff.

Erbes Music Co. Opened

GOLDENDALE, WASH., November 4.—The Erbes Music Co. has opened in its old location, carrying a complete line of phonographs, radio sets and other musical instruments. Among the lines featured are the Sonora phonographs and the Stromberg-Carlson, Federal, Bremer-Tully and Thorola radio receivers.

Market for Radio Sets in Large Institutions

Multiple Speaker Arrangement Permits Use of One Powerful Radio Receiving Set in Hospitals, Schools and Similar Institutions

A ripe harvest awaits enterprising radio dealers in sales of powerful receivers connected to a number of loud speakers located in various parts of large buildings. From the Acker Electrical Co., authorized RCA dealer, comes the news of

Radiola Hook-up in Sanatorium

an interesting and remunerative installation of radio equipment for the Rocky Knoll Tubercular Sanatorium, a recently completed health project in Sheboygan, Wis. It is illustrated herewith.

A fund of \$3,500 was raised by popular subscription to furnish this institution with radio apparatus. A committee of local radio enthusiasts was formed to select the apparatus and properly apportion the fund. The Acker Electrical Co. was chosen to handle the installation of a Radiola-28 in the lower part of the building connected to a speech amplifier feeding thirteen Radiola-100 loud speakers located in different parts of the building. In addition, every bed, of which there are about one hundred, is equipped with a head-set, and a convenient switch on the wall of each room permits turning on or off a particular loud speaker or head-set in any ward. The whole installation is also controlled by a master switching arrangement in the basement so that programs may be distributed to all or only to desired wards. By means of microphone, announcements may be made or messages directed to either the patients or nurses in attendance.

F. A. D. Andrea Designs Tool for Radio Service

A tool for service jobs, designated as the Fada neutralizing tool, has been designed by F. A. D. Andrea, Inc. Since the development of the Fada 8 and the Fada 6, in which a special type of neutralizing condenser is embodied, the factory has designed this tool for adjusting these condensers, which are known as neutrons. The Fada engineering department states that while these condensers seldom need adjusting, the new tool gives the service men of distributors and dealers a handy means to make the readjustments when they do become necessary.

Harger & Blish Salesmen Have Unusual Business Card

DES MOINES, IA., November 6.—The salesmen of Harger & Blish have adopted a unique business card, the front of which is cut and printed to represent an Atwater Kent single-dial set. On the back of the card is the name of the sales representative, the Atwater Kent trade-mark and company name.

Kansas City Dealers Complete Plans to Take Advantage of Big Year-End Demand

Indications Point to Satisfactory Sales Volumes in All Lines Handled by Talking Machine Dealers in That Territory—Business Outlook Is Bright, Report Trade Leaders

KANSAS CITY, Mo., November 6.—Dealers expect the month of November to be active in talking machine demand. The continued warm weather which has characterized the season here so far has delayed Fall sales in all lines of merchandise, the music stores sharing in the general quietness. Distributors, however, are overwhelmed with orders and every indication points to unusually heavy buying on the part of the public in the phonograph line this Winter. With all the new lines on the market and ready for delivery, consumer interest has been aroused to the buying point.

Radio has opened up with satisfactory impetus, the season being several weeks ahead of last year, according to the dealers. The World Series, and the Dempsey-Tunney fight influenced early sales to a great extent in the opinion of many, and the football season has been another factor in keeping up the sales, while the colder weather has the natural effect of stimulating radio interest. The outstanding feature of the radio sales this season is that the higher-priced merchandise is the most popular. People have experimented with cheap sets and now they are buying something which they can depend upon.

Record Sales Increase

Record trade is the bright spot in the phonograph business just at present. There are a large number of exceedingly good dance records on the market, all of which are so good that every dance enthusiast feels he must have them all. It is remarked here that the vocal records with dance rhythm meet with greatest approval from the public.

A new feature of one of the local papers promises to aid the record business substantially. It is a weekly column entitled "What's New in the Popular Record," and in a breezy, humorous vein the writer discusses the current hits, telling the nature of the record, who gives the performance and makes comments on each. It is a valuable guide to the shopper who wants to be able to go in and ask for records by their name, rather than pick them at random.

Don Bestor's Victor recording orchestra is playing a lengthened engagement at the Hotel Muehlebach grill.

J. W. Jenkins Sons Co. Busy

The J. W. Jenkins Sons Music Co. is finding phonograph business normal for this time of year, but expects a decided impetus to buying this month, according to Burton J. Pierce, sales manager of the phonograph department. Combinations in the higher-priced models have been moving with unexpected celerity, while activity in all lines has been normal.

"Much of our business is with salaried men,"

said Mr. Pierce, "and they are buying clothes for Fall, getting the children ready for school and buying other necessities. The family budget does not allow for added expenditures during September and October. However, with these items out of the way and a few cold nights at home, the need of a phonograph will find a ready response."

Brisk Radio Demand

Radio has been active with the Jenkins firm for the past few weeks. Mr. Pierce finds that the Radio Corp. of America line, which is the exclusive line of the department, is very popular. The higher-priced sets from \$115 up find the biggest demand. "People are done with experiments and after having a few bad experiences with cheap machines they are after something permanent and reliable," said Mr. Pierce. Most of the customers in the radio department have owned radio sets of some description and are sold on the idea, according to the department head.

The Paul Record Shop is enjoying its usual active business in records, along with a satisfactory trade in talking machines.

Everybody's T. M. Co. Adds to Catalog of Repair Parts

Maker of Honest Quaker Springs and Repair Parts Makes Eight-page Addition to Attractive Current Catalog—In Big Demand

PHILADELPHIA, Pa., November 6.—Everybody's Talking Machine Co., of this city, maker of Honest Quaker main springs and talking machine repair materials, has just issued an eight-page addition to its already large and attractive current catalog. This eight-page addenda is a condensed catalog of useful tools, hardware and assembling sundries for the talking machine repairman. It lists well-known Honest Quaker items, such as the "Repairmen's Friend," "H. Q." pliers, "Quaker Tap and Drill" sets, etc., which are representative of but a few of the tools which are required in every repair shop. This catalog also lists stay rods, needle cups, door knobs, cover supports, door catches, hinges, etc., all of which are attractively illustrated. In addition to the hardware there are listed a wide variety of amplifiers, motor boards, grilles, etc.

The Everybody's catalog, which was originally issued in March of this year, is of loose-leaf construction and this last addition of eight pages may be conveniently added and become a part of the catalog itself. The 1926 Everybody's catalog has proved very popular and

since its original mailing to the large list on the books of the company very many additional requests have been received for it.

In the new catalog of James K. Polk, Inc., Atlanta, Ga., distributor of Honest Quaker products in the South, the Everybody's catalog of main springs and talking machine repair materials is reproduced in its entirety as part of the Polk catalog. The catalog of the distributor was produced in the same size page as the Everybody's catalog and in co-operation with its distributor, Everybody's Talking Machine Co., Inc., which supplied the exceptionally fine plates that are used in its own catalog.

Production Music and the Way in Which It Increases Sales for the Merchants

Properly Linked Up With the Appearances of the Production From Which the Numbers Are Taken, It Always Brings New People to the Dealers' Sheet Music Departments

According to word from a mid-West dealer, there are values in production music in addition to the profits from immediate sales. This enterprising merchant takes the attitude that people who are brought into the store for songs from musical comedies invariably are those who would not otherwise visit the establishment except at very long periods.

Production music, therefore, lures people to the music establishment, and as such music it must be valued accordingly. After all, it is getting people into retail stores that makes for large sales totals, and any method that will produce such effects among buyers should be looked upon by the merchant as more than worth while.

Now it is true that only the outstanding numbers from musical shows have large sales, so no one would suggest that the dealer carry heavy stocks of the songs of lesser importance in productions. However, a good method is to carry a fair supply of the most successful numbers and during the show's run in any particular city to have a few each of the second-best songs, as well.

The firm of Leo Feist, Inc., has, in a measure, offset the necessity for carrying any quantity of second-best sellers by issuing for its late productions folios carrying seven songs in one cover. They are entitled "Vocal Gems," each with the name of the particular show. They retail at a very popular price and include not only the hit songs but all the first seven numbers of the production.

Granting that production music is an attraction which does somewhat more than bring profit from musical shows to the store, the next question is how best to get the most out of the visit of productions to the dealer's locality. One of the simplest forms is to display the music of the current production in the window, reminding those who have attended the show that the song gems can be had inside. It may not be generally known, but all theatres are glad to loan, to any dealer, photographs of the prominent players before and during the visit of a musical comedy. Where the names of the artists are known locally, the inclusion of a photograph or photographs will not only add value to the display but will give an intimate touch to the setting.

In addition to the above, publishers and jobbers often have special display material related to particular shows. This is generally of such a nature that it lends itself very readily to window display and, more often than not, will add importance to the window and attract customers who might not be lured to the window or to the establishment otherwise.

There is not as much gamble in production music for the dealer as some would have us think. Of course, if nothing is done to encourage interest in the songs or instrumental selections from a show, there are likely to be few attracted to the establishment. The main thing in all sales of production music, on the part of the dealer, is to remind the prospective customers of particular numbers that they have heard in one or more places elsewhere. The number one show that takes to the road does so because the producer is assured of filling theatres during the tour. This is generally after the production has had months of success in New York or Chicago. As far as the typical road shows are concerned, there is very little gamble in displaying the songs from these offerings, for no producer puts out second, third and fourth shows unless he has absolute assurance that they are money makers. If either type of show has attained sufficient success to justify a tour of the country, the trade can rest assured that it has several song attractions which have aided

considerably in making it an artistic and financial success. Such being the case, songs that have made possible four and five-dollar prices for seats in New York and two and a half and three-dollar seats on the road must be of sufficient importance to create many sales for themselves. It can be taken for granted that people who pay such prices for seats for a musical show are in a position to produce the necessary funds to buy the particular songs from such productions that they like. And, what is more, they are able to purchase other goods in the establishment if their interest is aroused.

Taking these things into consideration it might be worth while for sheet music dealers to give more attention to show music. An example has been set in this direction by many talking machine dealers throughout the country who take advantage of every appearance of a musical show to display the records of the song numbers. They have found this profitable and a very big attraction to passing customers. There is no reason in the world why the sheet music dealer should not be able to attain the same end by following out similar activities.

Piantadosi Re-enters Field

Al Piantadosi, who has been writing songs for over a decade, recently re-entered the publishing business, forming the firm of Al Piantadosi with offices at 1576 Broadway, New York City. The first numbers of the new firm are "Tired Hands" and "I May Learn to Forget Some Day" (And You May Learn to Care). Both numbers in early tryouts have shown up to good advantage.

Development of Radio Receivers—

Here it is!

For two years you have been asking the question, "Why doesn't Kellogg bring out an A. C. set?" You all knew that Kellogg had perfected and marketed an A. C. tube. You couldn't understand why we didn't use them ourselves. It was one thing to create a successful A. C. tube. But it was quite another thing to build an A. C. set that would be worthy of the Kellogg name and guarantee. We were pioneering a momentous step in radio development. Even with Kellogg's vast engineering resources, it was a big job. For two years our engineers have worked behind locked doors. A year ago we had it—but we could not tell you about it. We had to be sure, very sure that every detail was perfect. But NOW—after a whole year of testing and proving, we are ready to release this wonderful new Kellogg A. C. Receiver.

Here it is!

Exhibited in Kellogg Booth No. 81 at the show. Here it is, ready for the impatient public that has been clamoring for a set free from ALL batteries—a set that may be plugged into the light socket and bring in perfect reception without a thought or a care as to battery maintenance. No "A" batteries; no "B" batteries; no "C" batteries. A set that is built completely by Kellogg; parts, tubes and all. A set with all its units designed and built to achieve a single ideal; backed by all of Kellogg's financial resources, and inspired by the Kellogg determination to create the greatest radio the world has ever known.

Deliveries will start after July 15th. Application for franchise should be made promptly if early allotments of stock are expected.

Victor Makes First Record in Atlanta Recording Studio

Emory University Glee Club, Assisted by Louise Hunter of the Metropolitan Opera Company, Makes First Record in New Atlanta Studio

ATLANTA, GA., June 3.—The first record made by the Victor Talking Machine Co. in its new Atlanta recording studios has just been put on the market and is having a fine local sale, according to all reports.

The record, which is, of course, an Orthophonic reproduction, consists of two numbers by the Emory University Glee Club, of Atlanta, assisted by Louise Hunter, of the Metropolitan Grand Opera Company, and is said to be one of the best glee club medleys recorded during the past year.

Last year the Emory University Glee Club toured Europe during the Summer, singing at most of the leading cities, where it made a decided musical hit. At present it is considered one of the outstanding musical organizations in the Southern collegiate field.

Several other Victor recordings will probably be made by the Glee Club, following the steady sale of its first offering.

Exaggerated Rumors Hurt Business in New Orleans

Pointing out that the circulation of misleading, and exaggerated rumors in the North is doing more harm to New Orleans than the flood of the Mississippi River itself is inflicting, Woodward, Wight & Co., Ltd., New Orleans, distributor for Thermodyne and Algonquin radio products and one of the largest general supply houses in the South, said that the only flood damage suffered recently in New Orleans has been due to unusually heavy rainfall and

not to the Mississippi overflow. It is stated that New Orleans has not at any time had any flood waters within its limits.

Australian Jobber Seeks American Radio Connections

Pointing out the tremendous demand for radio receivers and accessories in Australia and New Zealand, Harrington's, Ltd., of 386 George street, Sydney, has written to The Talking Machine World stating that they are in the market for quality radio products for distribution in that section. The firm of Harrington's, Ltd., has been established for thirty-eight years, and is one of the largest radio jobbing houses in Australia and New Zealand. In addition, the company operates large retail stores at Sydney, Melbourne, Brisbane, Adelaide, Katoomba, New Castle, Wellington and Auckland. They maintain factories and laboratories at Annandale and New Castle.

Harrington's, Ltd., now represent several of the leading American manufacturers, and the popularity of American products in their section of the world is such that they are seeking to take on additional lines of quality merchandise.

Schwan Bros. Open Store

A new store carrying a complete line of talking machines, records and radio receivers has been opened in the Mader block, Dansville, N. Y., by Schwan Bros., who are planning a vigorous sales campaign.

Gold Seal Elec. Co., Inc., Now in Modern New Plant

Well-known Manufacturer of Radio Tubes Occupies Factory Specially Constructed to Facilitate Production of Tubes

The Gold Seal Electrical Co., Inc., manufacturer of Gold Seal radio tubes, now occupies its new factory in Newark, N. J., illustrated herewith. The new Gold Seal plant is equipped with the most modern machinery and tube

manufacturing apparatus, and was erected under the supervision of James W. Duff, president, an authority on manufacturing processes.

The floor plans provide for an uninterrupted flow of operations from raw material to the completed and tested tube and to the packing and shipping departments. Capacity with present equipment is 25,000 tubes per day, and there is ample room for expansion to accommodate the rapidly growing business of the Gold Seal Co. It is stated that Gold Seal's export business alone will take a large part of the increased output.

Metropolitan Trade Activities

Attractive Window Displays a Feature of Gimbel Store

A most attractive display of portable talking machines graced a large show window of the music store of Gimbel Bros. during the past month and was successful in stimulating sales. Among the portable instruments featured in the display were Carryolas and Sonoras. The record department of this store was recently transferred from the basement floor to the main floor and William Schneider, manager of the department, states that the change resulted in an immediate increase of record sales. Another display which attracted crowds to this store was that of the Heinafone, a six-tube radio receiver for automobiles.

A. I. Ross in New Home

The A. I. Ross Music Stores recently moved the store formerly located at 333 Steinway avenue, Astoria, L. I., to 456 Steinway, the new building of the Ross organization. The new Ross Store is directly opposite the Astoria Theatre. The formal opening of the new quarters was held on Saturday, May 14, and the hundreds of patrons who attended were entertained by a galaxy of record and radio artists. A full line of Orthophonic Victrolas, records and radio sets is carried.

Masterworks Sales Increase

A greatly increased demand for talking machines during the latter part of last month was reported by Marconi Bros., Columbia and Victor dealers, at 126 East Fifty-ninth street. Paying tribute to the success of the Beethoven Week activities of the Columbia Phonograph Co., this store stated that the sale of Columbia Masterworks recordings had increased about 90 per cent during the month following the observance of Beethoven Week.

Loeser Co. Reports Increase

A. R. Filante, manager of the talking machine and radio departments of Fred Loeser & Co. department store, Brooklyn N. Y., reports a satisfactory business for the past month, considerably in advance of last year. The demand for radio receivers was heaviest, with the Atwater Kent, Fada, Stromberg-Carlson and RCA sets all selling well. A clearance sale of talking machines was most successful.

Kellogg Radio Sales Good

The Boley-Oliver Co., New York, sales agent for the Kellogg Switchboard & Supply Co., reports a satisfactory demand for the Kellogg line of radio receivers. This firm has lined up about 200 of the most prominent retail radio stores throughout the territory as Kellogg representatives, and practically every dealer has been featuring the line through newspaper advertisements and window displays.

J. Modell & Co. Busy

J. Modell & Co., occupying the store at 10 Fourth avenue, Brooklyn, N. Y., formerly used by Gibbons & Owens, Victor dealers, report a brisk radio business in the many radio lines carried. This store recently added a line of portable talking machines, and due to its location opposite the Long Island depot, has started a camera, film developing and printing department which is bringing in steady profits.

Walthal Opens New Stores

The Walthal Electric Co., Inc., operating a chain of retail radio stores throughout the metropolitan section, recently added two new outlets to its organization. The first of the new stores is located at 987 Southern Boulevard, the Bronx, and the other at 7 North Broadway, Yonkers, N. Y. Among the products carried at the Walthal stores are included those of the Victor Co., Radio Corp. of America, Stromberg-Carlson Tel. Mfg. Co., Fada, Atwater Kent Mfg. Co. and the Kellogg Switchboard & Supply Co. A vigorous drive is planned.

Newark Jobber Adds Philco

The National Light & Electric Co., Newark, N. J., has added the Philco line of storage batteries and power units to the merchandise which it distributes throughout the northern New Jersey territory. This company also placed on the market within the past two weeks a new stand for the new 100-A Radiola speaker. This stand is of wrought iron and finished to match the speaker.

Filmo Cameras in Demand

A. F. Cotton, in charge of the Eastern headquarters of the Bell & Howell Co., maker of Filmo motion picture cameras, states that business is most satisfactory, and that the upward trend in business which makes its appearance during the month of May arrived on schedule and dealers throughout the territory find a consistent demand for the product. The outlook for a big Summer business is bright.

Celebrates Anniversary

The Chambers Music Co., 77 Chambers street, celebrated its tenth anniversary last month and featured special offerings in radio and talking machine equipment during the celebration. The demand at this store inclines more heavily toward talking machines and records at the present time.

V. C. Rottkamp in New Post

V. C. Rottkamp recently joined the sales staff of the New York wholesale division of the Columbia Phonograph Co., covering the New Jersey territory. Mr. Rottkamp was formerly connected with the Gennett division of the Starr Piano Co.

To Distribute Bosch Line

The Wholesale Radio Equipment Co., 113 Leonard street, has added the complete line of Bosch products to the merchandise which it distributes throughout the metropolitan territory.

Erecting New Building

Ludwig Baumann & Co., operating a chain of furniture and music stores throughout the metropolitan district, have started work on the erection of a ten-story building at the corner of Hoyt and Livingston streets, Brooklyn, N. Y.

Incorporation

The Hub Music House, New York, was recently incorporated at Albany to deal in talking machines and other musical instruments, with a capital stock of \$10,000.

Aeolian Brooklyn Branch Moves to New Building

The Brooklyn branch of the Aeolian Co. is now occupying the main floor and basement of the six-story building which it leased for a long term recently. This new location is admirably situated, and Robert S. McCarthy, manager, hopes to be able to move the rest of the departments now being operated at 11 Flatbush avenue to the Lafayette avenue and Flatbush avenue location in the near future. He reports both radio and Brunswick Panatrope and phonograph sales in satisfactory condition.

Sells 600 Album Sets

The New York Band Instrument Co., East Fourteenth street, reports that business for the past month is considerably ahead of the same period of last year, due largely to the excellent volume of records of the better type. Since the observance of Beethoven Week the latter part of March this establishment has sold approximately 600 album sets of orchestra recordings, principally the Columbia Masterworks albums. Portables are also in popular demand at this store.

T. W. Barnhill to Go Abroad

T. W. Barnhill, president of the Penn Phonograph Co., of Philadelphia, Pa., will sail for a well-earned vacation in Europe on June 24. Mr. Barnhill will be accompanied by Mrs. Barnhill and his daughter, Miss Margaret Barnhill. They will tour the British Isles and France, after which Mr. Barnhill will return, leaving Mrs. Barnhill and daughter to continue through to Berlin, Czechoslovakia and the Mediterranean ports.

Majestic "B" Sales Increase

Herbert E. Young, Eastern district representative of the Grunow-Grigsby-Hinds Co., maker of Majestic "B" eliminators, reports that sales for May were far in advance of those made during April. Mr. Young and a large delegation of Majestic jobbers and dealers are attending the R. M. A. show in Chicago.

High-Priced Units Selling

The talking machine and radio departments of L. Bamberger & Co., Newark, N. J., report a demand for the higher-priced radio units. The Victor Electrola is also in favor with the buying public, inasmuch as the reproducing system of this unit can be used for radio amplification.

In Bankruptcy

A voluntary petition in bankruptcy was recently filed by Samuel E. Markovitz, 225 Roebeling street, Brooklyn, N. Y., who dealt in radio receivers, talking machines and other musical instruments. Liabilities were listed at \$11,834.34 and assets at \$5,825.44.

Marx Brother Buys Victrola

William M. Ross, manager of the A. I. Ross Music Stores, Astoria, L. I., recently sold a \$1,000 Orthophonic Victrola to Julius H. Marx, of the famous Marx brothers.

Milton Auster, formerly connected with the Weber-Rance Corp., has joined the sales staff of the Sanford M. Bookee organization, 221 Fulton street, New York City.

TOM BROWN AND THE SIX BROWN BROTHERS

Some fifteen or sixteen years ago Tom Brown played saxophone in the concert part of a circus. Then he gathered his brothers and Billy Markwith into an act and used brass instruments, then adopted saxophones. Boyer's Music House of New York supplied Tom with a number of Conn instruments. Then Tom began to rise in vaudeville. Later Tom was fitted out with a complete set of Conn Saxophones in gold but Tom himself never played a Conn nor any other make of this country as he started on a foreign make and has kept with it ever since, although a certain manufacturer gold-plated that instrument and has endeavored to palm it off as their make. Bad business. The following wire from Tom Brown is strong enough to convince any one as to what he and his men think of Conn Saxophones and we leave the reader to judge the situation.

"Must say Conn Saxophones are just perfect. We are credited with producing a wonderful tone and it is mostly due to the fact that your instruments are made the best and carefully tested. They satisfy the Six Brown Brothers."

(Signed) TOM BROWN.

TOM BROWN'S MUSICAL REVUE

This another musical Act that plays the big time and is meeting with the best success. It is a singing and playing act and comprises artists who are most capable. Mr. Gus King, the manager of the act, is a trombonist of unusual ability and has paid our factory several visits the past season. Among the many letters he has written us relative to the Conn instruments he has included the following:

"The Trombone received O. K. and want to thank you for it's a beauty and a wonderful instrument. You surely have kept your word in every way. It is remarkably fine in my solo work. The most important factor for any one's success in trombone playing first of all, is a good instrument. For that reason I am using a Conn. It has no equal."

STARITA'S SAXOPHONE SEXTET AND ORCHESTRA

This is one of the top-notch organizations of its class and is engaged at the American Rathskeller of Boston. At present it is playing a special engagement in New York City. It is an ALL-CONN organization and is fitted complete with a set of beautiful Burnished Gold Conns. Here is the line-up: Al Starita—Alto Sax and Clarinet, Renato Starita—Tenor Sax, Rudy Starita—Drums, Wm. Keys—Trumpet, 'Scotty' Al Holmes—String Bass, Henry Kalis—Violin, Frank Bellizia—Pianist and Arranger, "Mal" Hallett—Violinist and Assistant Director; adding for Saxophone Six Andrew Jacobson and Allan Christianson.

"We have tried them all but there are none better than Conns. Want to compliment you on your beautiful new Melody Saxophone just received. The boys are simply delighted with your instruments."

Cordially yours,

AL STARITA.

GUS EDWARDS NOVELTY ORCHESTRA

An organization that plays and sings to thousands of people throughout the country in high class vaudeville and leading hotels. We regret we haven't the names of each member but can say that they all play Conn Saxophones. Read Mr. Glenn Burr's letter:

"We have seven Conn saxophones. Mr. Robbins, the banjoist, has purchased a C Melody and Mr. Edwards, the drummer, purchased a bass. Mr. Shipman, the trumpeter, plays the baritone. The little soprano and C Melody I purchased for my own use from you about six years ago. We have just completed an engagement playing the Epply System of Hotels, the best in the middle west. This is our second engagement here in Louisville. Your instruments are responsible for a great share of our success. They are the 'best ever'.

Cordially yours,

GLENN BURRS.

BERT BROWN'S SAXOPHONE GIRLS

A classy act playing vaudeville from coast to coast, is fully fitted out with the Conn Saxophones in gold finish. Mr. Brown is a "deep dyed in the wool" Conn advocate for, as he has said, the Conn Instruments mean much to his success in his business.

"The new Melody in the Special Artist finish just received and I want to say it is the most beautiful and perfect instruments I have ever seen. I am simply overwhelmed to note its perfection in every detail. Great tone, perfect in tune, wonderful mechanism and a finish beyond description. You deserve the entire profession's praise for such fine work."

Sincerely yours,

BERT BROWN.

TED LEWIS AND HIS ORCHESTRA

TED LEWIS

And His Celebrated Orchestra.

Ted Lewis won fame with the Greenwich Follies Co. for the past several seasons and is now happily located in his fine Broadway Amusement Palace in New York, which place bears his name and where all New Yorkers and visitors to the metropolis enjoy his music and entertainment. Mr. Lewis is a genuine musical comedian and plays a lot of Saxophone and Clarinet. His musicians are high-class throughout. They all play Conns.

"The Jeweled Saxophone sent me is a wonder. The boys and myself are enthusiastic about Conns. They aid us greatly in producing the Act to its present big success. Congratulations." TED LEWIS.

FRISCO SIX ORCHESTRA

This clever group has been with the Fanchon and Marco Satires in season of 1920 and then played as entertainers in motion picture houses under the management of E. E. Johnson. They are at present engaged at the Addison Hotel of Detroit where they are making themselves prime favorites. During the season 1921 they visited the Conn Factories and equipped themselves with a set of gold instruments DeLux which they consider the greatest move toward success they have ever made. Mr. J. O. Sheehan is Director of the organization.

"We are certainly proud to say we are using Conn instruments exclusively. The Artist Finish Instruments are giving us the utmost satisfaction. The Trumpet is wonderful and has the real tone; the Saxophone is a work of art and perfection itself; the Trombone a marvel for tone and range—all of the instruments being so easy to play.

Best wishes. Very truly yours,
Signed,

J. O. SHEEHAN, Saxophone.
CHAS. E. MACK, Trumpet.
V. S. SIDES, Trombone.

FRISCO SIX ORCHESTRA

BAILEY AND COWAN WITH ESTELLE DAVIS

This classy act is well known in vaudeville. It plays the best time and, like all other leaders, use Conn instruments exclusively. We quote excerpts from each of their glowing letters of praise:

"The instruments we just received from Conn are simply wonderful both in construction, tone quality and appearance. They add 100 percent to our act. For the past five years I have admired your saxophones and I am proud to be the owner of one which my fellow artists so much admire." Yours sincerely, LYNN COWAN.

"My Conn Melody C is a beauty and the Artist Special finish is the last word. The tone quality is wonderful, the tuning device a revelation, the adjustment perfect; these combinations of perfection make the playing of a Conn Saxophone a great pleasure. Congratulations. Sincerely yours, ESTELLA DAVIS.

BAILY AND COWAN WITH ESTELLA DAVIS

MICKEY'S JASSOPATERS

Touring in high-class vaudeville, enjoy their work on a complete set of Conn Instruments. The Act comprises Miss Mickey Schurdevin—Piano and Melody Saxophone; Lloyd Schurdevin—Director, Saxophones and Drums; Frank Burson—Trombone and Vocalist; Edmund Mercer—Trumpet, Saxophone and Drums; Eddie Simkins—Clarinet and Banjo. Most of the Conn Instruments were supplied by the E. B. Guild Music Co. of Topeka, Kans., and the Jassopaters say: "There are none to compare with our Conns."

MICKEY'S JASSOPATERS

JACK SUTHERLAND

The well known comedian and musical "moke", has sent us a most unique photo of his Saxophone Six. Every Saxophone a Conn and the Act is going over great. Jack has paid us several visits recently and just swears by the Conn Saxophones. He said when last here: "Conns are positively the finest saxophones in every respect that can possibly be made. Every one of the family is just perfect and I say it to the world."

JACK SUTHERLAND'S SAXOPHONE SIX

HAROLD PETERSON

Of the Rag-a-Jazz Band wrote to Ross P. Curtis from London as follows: "Tell Mr. Loeb that I had at least a hundred inquiries here about my Conn Saxophone, and one fellow was about to cable the money for one. Guess he couldn't raise the required amount at the moment. Could have sold at least fifty if I had been fortunate enough to have them with me. English-made saxophones are terrible."

J. ROSAMOND JOHNSON

"And his Inimitable Five", formerly with Cole & Johnson, the originators of Syncopated Songs, have been touring the Big Time in Vaudeville with big success. Mr. Johnson is a saxophonist of exceptional talent and his combination of musicians are delighting all music fans throughout the country.

"Your C. Soprano Saxophone is the best I have ever tried. It is positively in tune which is more than I can say for others I have tested. It has a great tone and plays great. I must congratulate you on this fine saxophone." Cordially yours, J. Rosamond Johnson.

THE SOUTHERN RAG-A-JAZZ BAND

All students of the University of Nebraska, received an offer from London, England, where they played during 1921-22, which engagement filled with glory. They are fully equipped with Conns by the Ross P. Curtis Co. of Lincoln, the Conn agents. Personnel: Gale Grub—Piano; Bert Reed—Trombone and Manager; E. D. Cressell—Violin; Donville Fairchild—Banjo; Harold Peterson—Saxophone, and A. H. Schmidt—Drums.

Charles Frohman Lost on the Lusitania

THE destruction of the giant Cunarder, the *Lusitania*, on May 7th last, by a German torpedo, laid heavy toll on the theatrical profession. Charles Frohman, America's leading theatrical producer; Charles Klein, one of America's best-known dramatists, and Justus Miles Forman, author of "The Hyphen," were among those who fell innocent victims to the Kaiser's wrath. All three had been warned against sailing by anonymous telegrams received before starting, but they took no heed. Charles Klein's last words on the dock were: "I'm too busy thinking over my new 'Potash and Perlmutter' play to bother about torpedoes." The despatches say that when the ship went down Mr. Frohman, Mr. Klein and Mr. Forman all stood on deck together facing the end. Mr. Frohman's body was the first to be recovered. The expression on his face was reported to be the most placid among all in the Queenstown morgue.

For over twenty years Charles Frohman has been the leading figure among theatrical producers in this country. Under his direction and genius the American stage has been given an impetus, and reached a height of prosperity it has never known before. He was not inaptly called the Napoleon of the drama. Not only in personal appearance, but in his daring, impetuous methods he resembled the conqueror of Austerlitz. To his associates and intimates he was simply C. F. Kind and considerate to all, especially to those in his employ, never was a man more respected and loved by those having business dealings with him.

Born in Sandusky, Ohio, in 1860, Charles Frohman commenced life as a clerk on the *New York Tribune*. Later he was employed in the box office at Hooley's Theatre, Brooklyn, and this was his first connection with the theatrical profession. Later he joined Haverly's Minstrels as business manager, and in 1879 was assistant manager of the Madison Square Theatre. He gave up this position to become a dramatic agent and organize companies of his own, but without success until 1889 when, with the financial backing of Al Hayman, he produced Bronson Howard's Civil War play "Shenandoah," the success of which brought a fortune both to producer and author.

In his personality Charles Frohman was the antithesis of the popular idea of the theatrical manager. It would be impossible to suggest the name of a man who is, who ever has been, before the public in a similar capacity who was more impersonal to his business than he. Instead of courting publicity for himself he actually shunned it. It pained him to see his portrait printed, and he gave orders at his office that it should never be given out for publication. His manners, habits and tastes were of the simplest kind. It was a great misfortune to the American stage that Charles Frohman never had the advantages of a first-class education. He started in life to make his own living before school days were over, so that his life was one of hard work, reverses and disappointments before he achieved material success, and there was no time for intellectual pursuits. The success of "Shenandoah" relieved him of all his debts and gave him his first real start in life. So that, while Mr. Frohman fought shy of the work of American dramatists, preferring to import his plays, it was after all an American play that put him on his feet financially. "Shenandoah" was the starting point of Charles Frohman's career as a successful manager because it founded his stock company, the excellence

Charles Klein and Justus Miles Forman also go to their deaths on the ill-fated steamship.

of which became his first trade mark. John Drew was Mr. Frohman's first star. Since then many other distinguished players have placed themselves under his direction. They include Maude Adams, William Gillette, Annie Russell, Virginia Harned, Mrs. Patrick Campbell, William Crane, William Faversham, Billie Burke, Julia Sanderson, Blanche Bates, Marie Doro, Ethel Barrymore, Nat Goodwin, Otis Skinner, Ann Murdock and Florence Reed. Mr. Frohman

controlled in New York the following theatres: the Empire, Lyceum, and Knickerbocker and the Garrick and Criterion until they closed. He also controlled several theatres in other large cities in the United States, and was also interested in many other playhouses owing to his association with Klaw and Erlanger, and Hayman & Co. In London, he controlled the Duke of York's Theatre and formerly the Globe Theatre.

Certainly no theatrical manager in the world, living or dead, has had interests as numerous and widespread as these, and in America where success in any direction commands respect the personality and achievements of Charles Frohman justify the title given him of the "Napoleon of the drama."

In dealing with his actors Mr. Frohman was an autocrat. He was liberal to a fault in all money matters, but his word was law. It was also as good as his bond or better. If he liked you, then you could have anything you wanted. With a man of such tremendous interests decision was an all important quality. When he took a stand he did not recede from it and there were those who took this for obstinacy. It was simply inflexibility of purpose without which Mr. Frohman, who was pulled at from morning to night, would have lived in a troubled sea.

Mr. Frohman's temperament did not let him do business in a small way. It led him to branch out, to grasp all that came within his reach. He was imbued with the spirit of his time and that spirit is one of restless energy, remorseless competition, expansion. Cardinally speaking, the most prominent trait in Mr. Frohman's character was that of boldness. Napoleon once said: "Boldness, always boldness." C. F. learned his lesson well.

Mr. Frohman made his headquarters at the Empire Theatre. There, on the third floor at the end of a long room, one would find him busy at his desk, the latter covered with a mass of letters and telegrams several inches deep. Of recent years, especially during his attack of articular rheumatism which rendered him lame, he transacted his business in the little suite of rooms he occupied at the Hotel Knickerbocker. He was a hard man to reach, but once you had secured access to his presence he listened attentively to what you had to say. At the outset he was sympathetic, although he quickly rejected a scheme if it did not at once appeal to him. When he started in to read a play, if it did not interest him in the first five minutes and if he did not find a situation in the first few pages of the manuscript, he never bothered himself to finish the reading of it. Situations Mr. Frohman dubbed as "tricks," and unless there were numerous "tricks" in the piece, it stood no chance with him. The manager's hard common sense taught him that it is only situations which count with the public, and the public was his *alter ego*. He preferred to wait upon the discoveries of the London and Paris managers for his plays upon the theory that the American pays more attention to the imported

11008 Columbia (Fantasia Polka) Cornet Accompanied by
 \$1.10 U. S. A. Dante's Concert Band
 \$1.25 Canada "Faust"—Soldiers' Chorus (Gounod) Dante's Concert Band

In Pietro Capodiferro we have a cornetist who is second to none and who enjoys the distinction of having been connected with the Metropolitan Opera House Orchestra as cornet soloist for the past ten years. Now that the attention of everyone is directed to things of a distinct military and patriotic flavor, it is very fitting that Capodiferro should give us, on his first record, an exceptional rendition of an expressly instrumental arrangement built around the favorite "Columbia, the Gem of the Ocean" with Dante's Concert Band accompanying in a manner that lends a pleasing touch.

The famous "Soldiers' Chorus" played in the fourth act of the opera "Faust," just as the victorious soldiers return from the war, is one of the most jubilant and inspiring marches ever composed. Dante himself conducted the band in the making of this record and the manner of its interpretation lends greatly to the atmosphere of the composition.

 \$1.10 U. S. A. Violin with Piano Acc.
 \$1.25 Canada Hungarian Dance (Rachmaninoff) Elizaveta Kalova Ondricek
 Violin with Piano Acc.

Mme. Kalova Ondricek.

Mme. Elizaveta Kalova Ondricek was born in Poltava, Russia, and studied with Prof. Petri in Dresden and Prof. Sevcik in Prague, later appearing with overwhelming success in Germany, Russia and Austria. She made her debut in this country with the Russian Symphony Orchestra and her American tours have met with tremendous success. She is a violinist with a full tone, masculine in strength when the music demands, but womanly in character, and a dashing delivery. This record includes two of her favorite numbers that appear on all her concert programs. Her rendition of "Spanish Dance" is decidedly original and the quaint rhythm and untold beauties in the "Hungarian Dance" are somewhat responsible for its immense popularity.

DANCE RECORDS

With the advent of cool weather, there is an increased demand for lively dance music, particularly at this time when the keeping in step to the swaying rhythm of the dance is so helpful a recreation in offsetting the depression resulting from the war. This list includes some of the exceptional dance numbers so many Broadway feet will be tripping to during the winter months.

 85c U. S. A. "Oh! Frenchy"—"We'll Do Our Share"—"That's The
 \$1.00 Canada Kind Of A Baby For Me" Earl Fuller's Jazz Band
 Jazz De Luxe (Fuller)

Heading the list is a medley one-step bearing the title of a selection that bids fair to stay at the head of the list of popular numbers for a long time, for "Oh! Frenchy" is a catchy, rhythmical melody played in a style that sends a delightful thrill through every listener. The two other numbers combine with this to make one of the most tuneful dance numbers ever offered. The fact that Earl Fuller's Jazz Band has complete charge of the music at "Rectors," New York, is sufficient assurance that what they offer never fails to produce a sufficient amount of merriment and enthusiasm to please the nightly pleasure-seekers who throng this gay resort.

SOME ATTRACTIVE GIRLS IN IRVING BERLIN'S MUSICAL SHOW, "WATCH YOUR STEP," AT THE NEW AMSTERDAM

A TWENTY-SIX-YEAR-OLD who can't read music, **Irving Berlin—A Restless Success**

who can play the piano only in the key of F sharp, who never had an hour's instruction in harmony and counterpoint, is striding into the temple to confute the learned doctors. The clatter of his rhythmic heels comes nearer and nearer the Holy of Holies. Who, where Chopin is sacred or Brahms is bruited or Wagner is handed about the table as nonchalantly as the salt—who in these precincts has heard of Irving Berlin?

Everybody!

Where English is spoken, Irving Berlin is to-day unquestionably one of the most popular living composers. He is as well known in London as in New York; for him the proletariat shoots off its huzzas, and the melodic aristocracy is divided in its own person, for while its lips deny, its feet refuse to keep still.

This is no panegyric of "Watch Your Step," Berlin's first and extraordinarily successful show. It is about the quiet, intense, gentle, dark little personality—Berlin himself. He has the busiest publishing house in New York; he could not count his songs any more than Rockefeller père could enumerate his oil-tanks; he is writing a new musical comedy, he is continually writing new songs, for which he keeps a whole staff of arrangers busy embalming the airs that fly from his spirit onto black keys only; yet so far, he says, he has done very little that he wished to do.

Six years ago he was a singer in East Side cabarets, with an ambition toward popular song-writing. To-day he is the most successful writer of his type of songs in the world, and he declares that he will never be content until he has written The Genuine American Music Drama. His favorite music masters are the modern Russians. He doesn't pretend to understand their music. He bows to its spell unquestioning. Moussorgsky, Rimsky-Korsakoff, Borodin, Tchaikowsky, alternately thrill, chill and inflame him.

It is the simple earnestness of the boy which makes one believe in him. He is a Russian Jew, son of an itinerant Cantor, and the greater part of his childhood was

spent in industrious, cheerful poverty on New York's East Side. He sang in his father's services, and the Cantor taught him something of music, but his teachings were not so fine as the artistic birthright unconsciously bestowed. Irving Berlin's music, in its good examples, is always better than its form and medium.

In single songs, he has never surpassed his great triumph of four years ago, *Alexander's Rag-Time Band*, of which a Western critic wrote: "With the irresistible virility of this single melody, Puccini could have popularized 'The Girl of the Golden West,'" With his little voice and his frail hands, and his ludicrously limited pianistic ability, the boy had been vainly supplicating his own street to listen. When *Alexander* spoke the world answered, and made respectful requests in turn.

The song was the sort of triumph fatal to any man save a genius. It made Berlin. It gave him what he had never had—a little leisure, and some popularity, and a few big rocks for the foundation of the publishing business. The business proved to be an ogre in the form of an animated cat-o'-nine-tails, lashing him into unceasing and unsparing effort ever since.

We sat in the twilight of one of the fifteen piano rooms of his song-shop—in which he himself manufactured ninety per cent. of the goods.

"I suppose we all work best under pressure," he smiled, abstractedly touching something in his sole key of F sharp. "I can't get to work until my partners tell me that sales are falling, that the rent is increasing, that salaries are going up—all because I'm not on the job. Then I sweat blood. Absolutely, I sweat blood between 3 and 6 many mornings, and when the drops that fall off my forehead hit paper they're notes.

"That's the way I wrote *International Rag*. I was in London. I had a grip full of stuff; nothing especially new, nothing characteristic enough, they said. I composed the melody and wrote the first verse of *International Rag* in the Hotel Savoy at 4 o'clock the morning of the day before I opened,

the play writing bee attacked him and thereafter he acted only to get money to support himself while writing. At last one of his pieces won production, it was named "The Weather Hen." Mr. Barker remembers it if nobody else does.

He had learned something about producing before this success and after he joined the Stage Society, of which Bernard Shaw was a director, he went about London seeking a theatre where Shaw's plays might be done. At length he found a manager willing to barter a couple of weeks rent for Barker's services in putting on "Twelfth Night," and in this house "Candida" was born. Mr. Barker, then 22 (he was born in 1877), playing the excitable and neuresthenic young nobleman.

Just before coming over Mr. Barker put on in London a condensed version of Thomas Hardy's, "The Dynasts." He reports it as having a genuine success. In his own play, "The Madras House," a character appears who interests the author so much he is curious to see if he will interest the American cousin. This character is an American, a man whom the author met on his first visit to New York six years ago. Even at that time there was talk of Mr. Barker managing the New Theatre. The proposition did not attract him at that time, but the States did and so did the particular specimen of America who figures after more than half a decade in the forthcoming play.

having thrown all my bath towels into the piano to deaden its resonance. I wrote the next verse the following morning, and sang the song that afternoon.

"Do I believe in inspiration? In having things hit you from nowhere? Big things you've never dreamed of? Occasionally—yes. I have never given Irving Berlin any credit for *Alexander*. It was simon-pure inspiration. I had long admired certain of its progressions, but the melody came to me right out of the air. I wrote the whole thing in eighteen minutes, surrounded on all sides by roaring pianos and roaring vaudeville actors."

"Rag-time is the one distinctive American contribution to the musical materials of the world. And as far as my meagre studies have shown me, no country's composers ever grew great if they failed to represent their time, their nation, and their people's artistic means."

"I have a home uptown now," continued Mr. Berlin, "and my hobby is my library. I never had a chance for much schooling, so I couldn't read the good books I wished to because I had to look up too many of the big words. I'm taking time now to look those words up. I'm trying to get at least a bowing acquaintance with the world's best literature, and some knowledge of history, and all of the famous dead people. I'm a little bit commercial in so doing. I want to know things, and I want to enlarge my vocabulary, with a definite purpose of bigger, better writing."

"You see, there's a real American Opera coming along, and I want to write it. In syncopation, you understand. I'm going to prove that you can syncopate for people's hearts as well as for their toes. It's going to be a simple American story—men and women, love and adventure, and a good red-blooded fight. Whoever writes the book, I shall write my own lyrics, as I always do. And I don't want the critics to find my grammar crooked, my vocabulary of the twenty-word kind, and my sentences stilted and funny. When I begin to write seriously, I want no silly lyrics."

"One thing I've done successfully few people know about—because they've never given the matter any consideration. I have vocalized the triplet, a favorite device for the instrumentalist, but avoided by the vocal writer. You'll find the triplet worded in almost everyone of my songs."

"The reason our American composers have done nothing highly significant is because they won't write American music. They're as ashamed of it as if it were a country relative. So they write imitation European music which doesn't mean anything. Ignorant as I am, from their standpoints, I'm doing something they all refuse to do: I'm writing American music!"

The Telephone Unites the Nation

At this time, our country looms large on the world horizon as an example of the popular faith in the underlying principles of the republic.

We are truly one people in all that the forefathers, in their most exalted moments, meant by that phrase.

In making us a homogeneous people, the railroad, the telegraph and the telephone have been important factors. They have facilitated communication and intervisiting, bringing us closer together, giving us a better understanding and promoting more intimate relations.

The telephone has played its part as the situation has required. That it should have been planned for its present usefulness is as wonderful as

that the vision of the forefathers should have beheld the nation as it is today.

At first, the telephone was the voice of the community. As the population increased and its interests grew more varied, the larger task of the telephone was to connect the communities and keep all the people in touch, regardless of local conditions or distance.

The need that the service should be universal was just as great as that there should be a common language. This need defined the duty of the Bell System.

Inspired by this need and repeatedly aided by new inventions and improvements, the Bell System has become the welder of the nation. It has made the continent a community.

 A stirring patriotic song by Monroe H. Rosenfeld, depicting an imaginary war between the Yankees and an "Unknown Foe." In a dream, the narrator sees a battle between warships, the ultimate result of which is the complete defeat and rout of the "foe" by the "tempest of our shot and shell." The lyric is so constructed that it does not reflect upon any particular nation, the "foe" being left to the individual imagination.

 A comic song portraying the sensations experienced by a pugilistic youth, in the first stanza, and by an autoist in the second stanza, while sinking into oblivion.
- 1027 She Couldn't Keep Away From the Ten Cent Store**
 Fred Lambert
 Humorous song detailing the suffering endured by a young man whose fiancée had a mania for shopping at these establishments.
- 1017 Stars of the Summer Night**
 Metropolitan Trio—Unaccompanied
 An excellent rendition of this well-known selection, the several voices being particularly well balanced.
- 1028 Summertime**
 Frank C. Stanley
 The latest march song by Harry von Tilzer, who is noted for his successful compositions. Mr. Stanley sings it in a most satisfactory manner.
- 1018 Sweetest Flower that Blows**
 Henry Burr
 A sentimental ballad which brings out all the expression and pathos in Mr. Burr's sympathetic voice. Composed by Chas. B. Hawley.
- 1019 Vagabonds—Roger and I—Recitation**
 Len Spencer and Gilbert Girard
 A realistic presentation of this familiar little poem by J. T. Trowbridge. Mr. Spencer impersonates the poor old tramp while the barking and whining of the faithful dog are most naturally imitated by Mr. Girard.

Scotch Dance Melley
A collection of Scotch dances in characteristic tempo. Our patrons will find this an excellent record for a Virginia Reel.

1007 Schnitzelbank—Two-Step

A unique comic number, very snappy and full of life.

1021 Sir Knights—March

An impressive religious record dedicated to the Knight Templars of the Universe, which introduces the familiar hymns—"All Hail the Power of Jesus' Name" and "Calvary."

1008 Whistler—March—(O Emané)

A spirited Bohemian military march.

1022 You and You—Waltzes

A charming waltz from Johann Strauss' delightful operetta, "Die Fledermaus" (The Bat). The gaiety and delicate beauty of the melodies, appeal to all opera lovers.

ZON-O-PHONE ORCHESTRA

1009 Chiquita—Serenade

A dreamy Mexican number with effective orchestration, introducing bells and castanets.

1023 Miss Hook of Holland—Waltz

An interesting waltz for the dancer, from the great London and New York success, containing the following melodies—"Holland," "Fly Away Kite," "Cheese Chorus," "The Sleepy Canal" and "A Pink Petty From Peter."

The baritone solo of the verse and the full round tones of the other voices in the chorus, make an effective rendition of this late selection, composed by Henry Avery Wade.

1029 Busy Mr. Bee

Alice C. Stevenson and Frank C. Stanley
An exceedingly attractive and novel little number, featured in "The Top O' th' World." The buzzing of the "Busy Mr. Bee" may be distinctly heard at intervals in the chorus.

1024 Climbing the Ladder of Love

Alice C. Stevenson and Frank C. Stanley
This charming love duet is one of the greatest hits in the successful musical production, "The Gay White Way."

1014 Come On and Kiss Your Baby

Collins and Harlan
These genial entertainers here present one of the most melodious duets yet issued;—a joyous dainty love song with an especially tuneful chorus, which they sing in their usual engaging manner.

1015 Everybody's Pickin' On Me

Arthur Collins
Coon song which tells of a despondent dorky's complaint, that his friends have been treating him badly, and his resolution to "pick" off with the aid of his shot gun, "Everybody" who^s been "Pickin'" on him.

1016 Flanagan in a Broadway Car

Steve Porter
A further adventure of our Hibernian friend, this time in a Broadway car. His endeavors to literally "cough up" his fare which he had accidentally swallowed, are very amusing.

STEPS TAKEN TO END DISCORD IN CHICAGO'S CIVIC OPERA VENTURE

Manager Johnson Assumes Firm Position, Declaring Insull Backs Him—Now Reported "Disciplining" Polacco—Issue of Having Artistic Director Is Involved—Extra Performances and Lack of Rehearsals Criticized

Polacco's Resignation Rumored and Denied

As this issue went to press, a telegraphic report was received from Chicago that Musical Director Giorgio Polacco is considering resigning as the result of the publicity given the recent incident in which he was snubbed by Claudia Muzio, and other disclosures as to the internal discord in the organization.

When asked for confirmation of the report, Business Manager Herbert M. Johnson of the company sent the following telegram direct to MUSICAL AMERICA:

"No truth in statement that Polacco has resigned or is about to resign. You cannot make this denial too emphatic."

HERBERT M. JOHNSON.

CHICAGO, Dec. 15.—As a further indication of a stiffening of the management of the Chicago Civic Opera Company, reports are current in opera circles that Business Manager Herbert M. Johnson has been quietly disciplining Musical Director Giorgio Polacco, to whose door much of the factionism in the company is laid by well-posted observers.

From close friends of Maestro Polacco and his American wife, Edith Mason, it has been learned that the conductor feels he is the victim of a misunderstanding growing out of an interview he had with Samuel Insull, president of the opera company, while abroad last summer. It is understood that Mr. Polacco, whose title is that of Musical Director, suggested to Mr. Insull that the company needed an artistic director.

Presumably, if this suggestion had been carried out, the artistic director would have been Giorgio Polacco. This would have meant inevitably a further encroachment on the powers and duties of Manager Johnson. Just what steps have been taken to impress upon the conductor that he is to concern himself with his own department can only be conjectured, but close friends, resenting implications in the criticisms being heard among opera patrons, have made it clear Polacco feels he is the aggrieved one.

Manager Johnson, in informal conversation with a representative of MUSICAL AMERICA, denied flatly that his powers are being encroached upon by any one. When reports that Jesse D. Scheinman, auditor of the company, was taking upon himself duties that belong to the manager, were brought up, he said emphatically, "That is not true." "You

Metropolitan Restores "La Juive" to Répertoire After Four Years' Absence

NOT so much a revival as a resumption, Halévy's "La Juive" flaunted its banners at the Metropolitan again on Friday night for the first time in four seasons. Still brilliant in the brave panoply provided for it in 1919, when it emerged from the half-forgotten past

as a novantique, it paraded its princesses and prelates, flashed its swords and halberds, pitted Jew against Gentile, mingled the vengeful with the pietistic, invoked the aid of a spectacular ballet and ended in a grisly plunge into boil-

WORLD PREMIERE OF CADMAN SCORE ON INDIAN THEME GIVEN IN DENVER

"Sunset Trail" Produced With Composer Present Under Auspices of Music Week Association Before Immense Audiences—Work Is Styled "Operatic Cantata" and Presentation With Scenery Is Optional—Music Teems With Beautiful Melodies and Effective Choral Numbers—Story Deals With Clash Between Federal Troops and Warriors, With Love Episode Interwoven

DENVER, Dec. 13.—The world premiere of Dr. Charles Wakefield Cadman's operatic cantata, "The Sunset Trail," was given in the Municipal Auditorium on Dec. 5, under the auspices of the Denver Music Week Association. John C. Wilcox conducted and William Wälsh was stage manager. Because of illness, Dr. Cadman did not have time to orchestrate the work, so it was performed with the composer at the piano and Clarence Reynolds, municipal organist, at the unit orchestra organ.

"The Sunset Trail" was repeated the following evening, and Dr. Cadman's opera "Shanewis" was likewise performed on both nights. Fully 6000 persons enthusiastically applauded the productions. Presentations of both the opera and the choral work were highly successful.

The cast for the premiere of "The Sunset Trail" included Lucile Fowler in the contralto rôle of *Wildflower*; Elwin Smith, tenor, as *Redfeather*; and Everett E. Foster, singing the baritone part of the *Chief*. *Grey Wolf*, a bass rôle, was allotted to Leroy Hinman. The *Old Man* and the *Medicine Man*, tenor and baritone rôles, were in the hands of Louis H. Blaine and Albert Kyffin. In the alternate cast provided for the second performance, the *Wildflower* was Mildred Rughe-Kyffin and the *Redfeather* James Allen Grubb. Edward Wolters appeared as the *Chief*. *Grey Wolf* in this instance was given to Mr. Hinman, and the *Old Man* was impersonated by Robert D. Kenworthy. The *Medicine Man* was William E. Sloan. The chorus numbered ninety.

The text of this work was written by Gilbert Moyle and has for its story the coming of Federal troops to move the Indians to their place on the reservation. A council is held in which older men of the Indian tribe try to persuade the warriors to obey the white men and remain at peace with them. The younger braves revolt against this advice and go to battle. Soon the camp is aroused by the noise of conflict, and in rush the wounded and dying. The lesson has been learned, and the counsel of the older men is then followed. A pretty love tale between *Wildflower* and *Redfeather* is woven through the story. *Redfeather*

Capacity House Fervently Applauds as Jazz Invades Realm of Serious Music

EVERYBODY was there. Obviously it would have taken more than a mere snowstorm to keep the army of curious and faithful souls away from Paul Whiteman and his Palais Royal Orchestra's "first recital of typical American music" (to use the leader's own words), on the afternoon of Lincoln's Birthday at Aeolian Hall. The program and an elaborate program-book described the event as "an experiment in modern music," and to judge by the thunders of applause which met the brilliant efforts of the bandmen and their master, the experiment can be counted a complete success in the popular sense.

Quiet Aeolian Hall was all dressed up for the occasion. Across the back of the stage, and partly obscuring the rows of organ pipes, stretched a large screen, stippled in gold and conceived in the most advanced Longacre Square manner; while on either side toward the front, pastebord pillars from the same exotic atelier shielded lanterns which threw beams of soft red and green lights upon the players. An upright piano brazenly flaunted its "innards," and horizontal members of the same family added the sheen of their polished surfaces to the ensemble. At the back reposed a whole armory of traps—tubes, celesta, drums, tam-tam, timpani, and smaller articles of refined noise.

In this curiously furnished laboratory the experiment was held, while a breathless audience which crowded the hall to its walls applauded each and every development with unconcealed joy. Mr. Whiteman's plan was in a manner of speaking historical. It began with an example of jazz as it was in its wild, bad days. This was the "Livery Stable Blues." A group of uninhibited young men armed with sundry instruments went through a number of contortions, made saxophones and trombones sob and shriek, told unmentionable secrets in accents of acid vehemence. It was exciting, and very stupid. Followed a demonstration of jazz in a more sophisticated stage, the number showing the thematic relationship between the "Banana" ditty and Handel's "Hallelujah" Chorus.

There is not sufficient space to trace the whole course of this unique program. It is hardly necessary to state that it exploited all the famous devices of jazz in triumphal fashion. All the subtle forms of syncopation, all the tricks of portamento, all the rare and often

ravishing timbres which are the peculiar contribution of jazz to instrumental art, were set forth with that smoothness, spontaneity and abounding virtuosity that have made the name of Whiteman and his orchestra famous on two continents. Before going on to the original contributions on the program, one may mention a semi-symphonic presentation of three tunes by Irving Berlin and of some standard pieces, among them MacDowell's "To a Wild Rose." A warmly applauded contributor to the program was the popular composer, Zez Confrey, who played a few of his own rhythmic conceptions and gave an amusing reminiscence of a player-piano grinding out its dismal message in an ice cream parlor.

Two Original Contributions

Two composers wrote scores especially for the occasion—Victor Herbert, who contributed four brief and characteristic "Serenades," and George Gershwin, well-known in the field of musical comedy, whose offering was an original "Rhapsody in Blue" for piano and jazz orchestra. The Herbert pieces are richly melodious and are scored with that uncanny art for which this composer is celebrated. They are entitled, respectively, "Spanish," "Chinese," "Cuban" and "Oriental." Played with superb finish and elan, they were uproariously applauded, and Mr. Herbert, who was seated in a box, was obliged to bow several times before quiet could be restored.

Mr. Gershwin's work is along different lines. It purports to be a serious and quasi-symphonic treatment of ragtime themes, an application of the jazz idiom to the principles of musical art. Mr. Gershwin is partly successful in this novel and ambitious task. His thematic material has a certain vitality, a verve and an occasional freshness which show its creator to be possessed of a genuine latent talent. But he has essayed, one fears, what is a well-nigh impossible undertaking. Even supposing that his technical equipment were equal to the developing in a true and genuine fashion of thematic material, which means the ability to extract the last drop of significance from a musical subject, it is more than questionable whether jazz-themes are susceptible of such treatment. He has undoubtedly an unusual rhythmic sense, and the orchestration of this score had moments of high originality, humor, and brilliance; but his wings are scarcely sturdy enough for such extended flights. Five years or so of serious study and absorption of genuine music might pos-

sibly transform Mr. Gershwin into a significant American musical temperament. At present, his work is only interesting for the flashes of promise that at intervals illuminate it. Intrinsically, this Rhapsody is unimportant. Mr. Gershwin played the solo piano part with that peculiar and dazzling technical skill which seems to be inborn in certain celebrities of Tin-Pan-Alley. He was given a tremendous ovation.

One should not neglect to mention the astonishing performances of Ross Gorman, who in a symphony orchestra would be called the concertmaster. This young virtuoso does things with reed instruments of every size, shape and color which are positively breathtaking.

The concert proved, if it proved anything, that jazz is definitely out of the jungle stage; that it can make, and has made, a significantly important contribution to the art of scoring for small ensembles; that it is easy and even fascinating to listen to—in homeopathic doses; that its attraction resides in

qualities almost exclusively external. For there is nothing noble, moving, or dignified about this particular form of music. It is simply immensely clever, effervescent, and for the moment stimulating. Back of it all, so far as the present writer is able to discern, lies nothing of significance, nothing eloquent and fine, nothing that nourishes the imagination. In a sense this concert was a disappointment, for it showed that, even technically, jazz is a feeble growth than some of us had believed. Its much-touted counterpoint falls to shreds alongside the pages of a genius—a Bach, a Strauss, a Stravinsky. Whether it is "American," is a matter of opinion. Certainly it represents very faithfully the tiny segment of America which lies between Forty-second and Fiftieth Streets, Broadway. Yet that is not precisely the whole of America, or its better part.

The great popular success of this concert has, it was announced, impelled Mr. Whiteman to repeat his experiment on the afternoon of March 7. B. R.

New York Concerts and Recitals

(Continued from page 27)

The resonant tone and facile technic of Horace Britt, cellist, and his grace in expression, found free scope in an Intermezzo by Lalo, a Spanish Dance by Granados, Henry Hadley's "Autumn Twilight," and other numbers. Mr. Britt played fluently, and with a fine legato style, and had to give a number of encore-pieces. The accompaniments were tastefully played by Imogen Peay and Ruth Muzzy Conniston. P. J. N.

Sara Sokolsky-Freid Plays

Sara Sokolsky-Freid, who on several occasions in the past has given proof of her artistic prowess, gave a piano recital in the Town Hall on the evening of Lincoln's Birthday. With technical fluency and admirable spirit and expressive power, Mme. Sokolsky-Freid played a taxing program which began with the Bach-Tausig Toccata and Fugue in D Minor and included the great Fantasia in C Major, Op. 17, of Schumann, a Chopin group and contrasted pieces by Haydn, Gluck-Friedman, Paradies, Kiesewetter, Albeniz, Granados, Rozycski and Liszt. The artist was greeted with much enthusiasm. W. S. E.

Robert Naylor in Recital

Robert Naylor, American tenor, was heard in the Town Hall on the evening of Feb. 13, in a program the major part of which was in English, though it included "Una Furtiva Lagrima" from "L'Elisir d'Amore" and "M'Appari" from "Martha" as well as two very lovely songs in Spanish by Alvarez. The program itself was unconventional, but not all of it of the highest interest, but it was effectively sung. Mr. Naylor's voice is a pleasant one in quality and is well handled into the bargain.

Mrs. Beach's "The Year's at the Spring" in the first group was particularly well sung, and the Donizetti aria which came next proved Mr. Naylor's ability in pure cantabile. The Alvarez songs, "Cantares" and "Pesares," were both excellent, their characteristic rhythms being well brought out and the songs as a whole given in true Spanish style. The penultimate group of Irish songs were good if somewhat light, and Mr. Naylor's clear diction made them clearly understood. The "Martha" aria closed the program and there were numerous recalls both here and between the groups. The audience, which was one of good size, was very appreciative throughout the recital. Gordon Laidlaw played excellent accompaniments. J. D.

Rosa Low's Début

Rosa Low, soprano, gave her first recital in Aeolian Hall on the afternoon of Feb. 14, with Coenraad Bos at the piano. Miss Low began with Caccini's "Amarilli" and Durante's "Danza, Danza," both of which songs are being overworked this season, and then sang an aria by Lully, ending her first group with a charming Gavotte, "Viens Aurore" arranged by "A. L." (who, by the way, was the mother of Liza Lehmann of "Persian Garden" fame). Some songs by Schumann and Brahms followed, and then a well-chosen group in French by Szulc, Grovlez and Sibella. The final group included Hungarian folk-songs by Arpad. "Thistledown" by

Miss Low's singing has much charm. The voice is light in texture, and she has the good sense not to attempt to force it beyond its capabilities. This, together with the fact that it is exceedingly well placed, makes the result most agreeable. Though the singer lacks as yet the interpretative finesse that only long experience can bring, she has the feeling of differentiation of mood which is a necessity for the concert artist. Experience will do the rest. The audience demanded a repetition of Grovlez' "Guitares et Mandolines" and after Sibella's "O Bimba, Bimbetta" an encore had to be given. J. A. H.

Miss Palesti Makes Bow

A first American recital by Marica Palesti, Greek soprano, who is said to have sung at the Moscow Opera in pre-war days, was given at the Town Hall on Thursday evening of last week. Michael Feveysky, pianist, who was heard as conductor in New York with the Russian Opera Company several years ago, appeared as co-artist, playing a "Royal Elegy" for piano by Rachmaninoff and acting as accompanist.

Miss Palesti is a singer of operatic methods, who achieves pleasing effects by a powerful and expressively managed voice and a personality of considerable magnetism. She began her program with arias from "Ernani," "Madama Butterfly" and "Hérodiade." Her tones were of considerable fullness and warmth, despite a slight tendency to vibrato. A second group brought a somewhat oddly assorted trio embracing Arthur Penn's "Just to Hear You Whisper"—the only English work of the evening!—Gounod's "Au Printemps" and Tcherépennin's "San Angelo di Aspro." The last brought much applause, and the singer gave as encore Puccini's "Vissi d'Arte," sung in Greek. Of great-

Dear Mr. Riggs:

It was a pleasure to hear from you again.

Since it had been considerably more than a year since I received the letter from Mr. Rous, I had some difficulty running it down in my letter files. Rather, I found the letter without trouble, but he had not written his address on it but had put it on the back of the envelope, which, somehow, had become separated from the letter. This afternoon I found the letter, however, and am able to tell you that the correct address is

Mr. S. H. Rous
855 South Serrano
Los Angeles, California

If you mention me in writing to him, it would be better to refer to me as Ulysses Walsh, the name by which he knows me. I hadn't acquired the nickname of "Jim" when he and I began corresponding. I certainly hope the old gentleman is still well and happy.

I don't have Will Oakland's exact address and have been puzzling in the effort to find some way for you to get in touch with him. I wrote Will two or ~~three~~ letters some years ago but received no reply. He has been mentioned two or ~~three~~ three times lately in Danton Walker's column in the New York Daily News, so I imagine that if you wrote a letter to him and enclosed it in one to Walker, asking him to forward it, it would reach Mr. Oakland. Or you might simply address the envelope:

Mr. Will Oakland
C/o Danton Walker
New York Daily News
New York, New York

A friend of mine recently wrote to me that he had called on John Bieling, the famous Haydn and American Quartets top tenor, and found him well and in good spirits at the age of 77. If you would like to write to John, his address is 102 Lafayette Ave., Hempstead, L. I., New York.

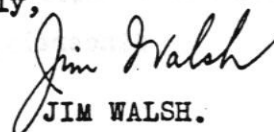

Albert Campbell is another old-timer who probably would enjoy hearing from a lover of old-time records. His address is 58-11 219th St., Bayside, New York.

Decca now has under consideration issuing an album of Billy Murray singing 10 or 12 of his biggest old-time hits and has asked me to pick out the numbers for him to sing. Billy is much interested in the idea, but is not sure whether his doctor will give him permission to undertake the job. He's had to take things slow and easy since his heart seizure of a couple of years ago.

Please forgive the rather poor typing of this letter. I've been working upstairs, trying to sort and file away in order a huge number of catalogs and supplements which have lain for years in boxes, and the work has left me rather nervous. I'm trying to get all my reference material in order so that I can go ahead in my limited spare time with the work of completing my book about recording artists.

I suppose you received the two issues of Hobbies I mailed you some weeks ago.

Sincerely,

JIM WALSH.

437 Cedar Avenue
Vinton, Virginia,
September 3, 1947

Dear Quentin:

I went to the post office early this morning and was handed your letter, so I have a chance to answer it before the postman comes around. I'm all excited over the trip to John Bieling's, despite the fact that I haven't felt well for a few weeks. August was the hottest month I think I've ever seen and the intense heat has about got me down. I'm sure though I'll feel better as soon as I get on the train. I wish I could have two weeks to stay in New York. There are so many people I want to see and so many things to do that I shan't be able to do half the things I should. I plan now to leave here either Saturday night or early Sunday morning and go to Orange, New Jersey, where I hope to see Mrs. Repelow (Frank Stanley's daughter) and perhaps Mrs. Edward Meeker and Mrs. Byron Harlan on Sunday. Most of Monday will be spent with friends at the Edison plant, and I'll come on into Hempstead late Monday afternoon or early that evening. There is a ~~poss~~ possibility that I shall change plans, going straight to Hempstead and joining the Nortons in going to Orange on Thursday. I had a letter yesterday from Mr. Norton, saying the Boston Post had published my Sunday feature about them, but so far I haven't seen a copy. Like you, I plan to leave New York on Sunday.

I had a letter last week from John Bieling, in which he said he was inviting Walter Scanlan, Will Oakland, John Young and Harvey Hindermyer. He asked me to suggest anyone else, and I mentioned Irving Kaufman and Charles Harrison. I hope all the boys will show up. If not maybe we can get in touch with them, anyway, and arrange to have you meet them. The last letter I had from Irving his address was 405 East 54th Street, New York.

Our little "party" apparently is going to get some publicity. I had a letter yesterday from an artist on the New York Daily News staff who says the paper is very much interested in giving the affair a "big blow up," and wants to send down a photographer and feature writer. I have written to John, asking if that will be O. K. I think a picture of the gathering would be a natural for one of the Daily News' Sunday editions. John seems very excited and happy at the prospect of getting his friends together. Billy Murray definitely will be there and is expected to bring Jimmy Martindale. So will Eugene Rose. You will get a big kick out of meeting the picturesque Nortons. Bryant Burke and Jim Van DeMark will be on hand, of course, and Brevoort O'dell, of Brooklyn, who has probably the largest cylinder collection in the world, may also come.

When we get together we'll talk over plans for the Sunday feature I'll write about you. I'll need details about your parents, your school activities, how you happened to start collecting records; the difference between you and high school jitterbugs, etc. I'm sure there'll be a picture that could be submitted with the story.

Eugene Rose says he thinks he left Edison around 1912, when the Diamond Discs began to be issued. He didn't do solo work for other companies--just played as member of their orchestras.

Len Spencer made records with so many other artists I just forgot his occasional work with Cal Stewart. However, when I write a series about Stewart I can get that in.

And now I'll call it quits and hope the mail carrier will come around and pick this letter up. If he doesn't I'll mail it in Roanoke this afternoon.

Happy flying and a happy stay in New York!

Sincerely, your friend,

JIM WALSH.
